Xenon Line Voltage Linkable & Direct Wire NXL Series

Features

The NXL Premium Series is ideal for undercabinet lighting in kitchens, study areas and displays with its low profile design. The housing is available in 5 different lengths ranging from 8" to 40" to handle most application requirements. Color options include a white and bronze finish as well as actual stainless steel to accommodate most decors. The NXL Series is line voltage, includes 20W lamps and is linkable up to 560 watts. In addition, the units can be direct wired. Unique hinged tempered glass and wiring compartment, as well as captive mounting screws, provide a smoother installation setup. Knockouts spaced every 4" on the top and bottom offers maximum wiring flexibility.

The following accessories are included with each fixture:

- 5' cord and plug • 12" connecting cable • BX/NM cable connector
- Direct connector for unit to unit connection

Construction

Fixture housing is made from 22-gauge roll-formed steel. Metal enclosed hinged service tray allows for easy installation and locks into position with half-turn latch fasteners. Tempered glass panel is also hinged, allowing convenient access to the lamp compartment. Power connections are made inside the service tray or with included cord and plug.

Finish

All exposed metal parts are post painted lighting grade and available in the following finishes:

- White Gloss Enamel (WH) • Stainless Steel (SS) • Oil-Rubbed Bronze (RB)

Diffuser

The diffuser is made of clear tempered 1/8" thick glass with frosted interior surface.

Electrical

This unit is wired for 120V line voltage operation. High/low switch included.

Lamping

The following lamping options are available, lamps included. Rated 5,000 hours.

- (1) 20W Xenon Bi-Pin • (4) 20W Xenon Bi-Pin
- (2) 20W Xenon Bi-Pin • (5) 20W Xenon Bi-Pin
- (3) 20W Xenon Bi-Pin

Certification

Fixtures are cULus listed for damp locations and carry a UL rating for undercabinet mounting.
