

Introducing
Aladdin Light Lift's-
New Wireless Controller
Available - Spring 2021

*Pictured above: Model # **AL-WLC** wireless transmitter w/ handheld controller.*

Finally!!! A wireless controller.

Aladdin's Wireless Controller is perfect for new and existing Aladdin Light Lifts. It eliminates the hassle of installing a wired key-switch in your wall. The Wireless Controller can be ordered separately or as an optional upgrade.

- Multi-Directional RF antenna allows you to operate your lift no matter how tall the ceiling.
- Equipped with safety features to protect against unwanted use. Deactivates after 30 seconds of inactivity.
- **Model # AL-WLC** includes handheld controller and wireless transmitter.
- **Please Note:** Aladdin Light Lifts have been proudly UL listed for over 30 years. This wireless controller was created due to overwhelming demand. It works seamlessly with every Aladdin Light Lift. However, the **Wireless Controller does NOT carry a UL listing**
