TRULUX™ RGB / RGBW Controllers

With built-in presets and the ability to create your own scenes, the Trulux RGBW controllers offer limitless possibilities for your space. Adjust brightness, speed, and even synchronize patterns. With RGBW color control, create lasting impressions that can evolve over time.

RF-RGBW-3Z

**Trulux RGBW Wall Control**
(3 Zones / 10 Auto Presets)

• Ultra sensitive color adjustment wheel
• Full range dimming
• Independently dim each channel
• 4 color presets + dynamic white
• 3 dedicated zone selection
• 10 auto effect presets
• Pair multiple receivers to a single control
• RF signal (up to 65 feet)
• Requires 12V-24V DC input power wire and Trulux receiver for install

RF-RGBW-3AAA

Trulux RGBW Remote
(1-8 Zones / 10 Auto Presets)

• Ultra sensitive color adjustment wheel
• Full range dimming
• 8 dedicated zone selection
• 10 auto effect presets with adjustable speed
• Includes convenient wall caddy
• Pair multiple receivers to a single control
• RF signal (up to 65 feet)
• Battery powered (3 x AAA)
• Requires Trulux receiver for install

TRULUX™ RGB / RGBW Accessories

Building a Trulux system is easy! Our Trulux RGB/RGBW controllers feature wireless technology that makes installation a breeze. All that's required is a 120V power source to a 24V driver, which is then fed to a Trulux receiver.
For advanced color control, use a Trulux DMX controller and receiver for ultimate color effects.
