

# STICK-ON LENSES

## Surface Mount Lenses

The Stick-On Lenses allow you to diffuse light without using an extrusion. After installing tape light, simply stick the lens to the same surface the tape light is mounted to using the 3M backing on the lens.

- Frosted lens protects light source while evenly diffusing light
- Field cuttable lens
- Compatible with most Trulux tape light
- VHB adhesive tape to easily secure to most surfaces

### Available Finishes

Frosted White

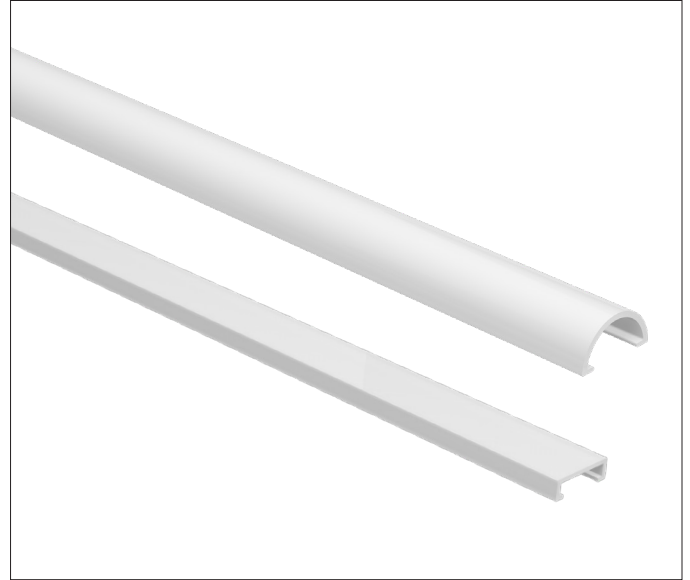

### Compatible Tape Light

- Single Color (10mm wide)
- Tunable CCT (10mm wide)
- Trulux RGB (10mm wide)
- RGBW/RGB+TW (12mm wide)

### Best Suited Applications

- Interior/exterior walkways
- Tile/wood flooring
- Facades
- Hardscape
