

STRUT

Aluminum Tape Light Extrusion

The Strut is a closet rod extrusion. While eliminating shadows it will provide a continuous line of light to distribute the light evenly in the closet. With the correct layout it can be used to create layers of light. Easily mounted using trestle or stainless steel mounting brackets.

- Made of lightweight double anodized aluminum
- Frosted lens protects light source while evenly diffusing light
- Field cuttable lens and extrusion
- Aluminum provides excellent heat dissipation
- End caps available for a tailored look
- Compatible with most tape light

Available Finishes

Anodized Aluminum

Compatible Tape Light

- Single Color + HD Connectors
- Tunable CCT + HD Connectors
