

Buckingham

When designers set out to create a hardwood line with the perfect color palette, Buckingham and Kensington are your results. Each color was created with its own unique multi-layer staining process until it was the perfect shade. We chose Buckingham for our Unleashed line because its beautiful colors, impressively wide 8" planks and wire-brushed texture are the perfect transition between carpets. This style is a nominal 5/8" thickness. The durable White Oak can take any and all pet or human traffic, and the six warm tones blend well with the petfriendly carpets when they're used as area rugs. For cooler tones, check out Kensington.
