Bronze, Opal Glass

Contract Suitable As Is

A slight departure from true linear form, this asymmetric grid-like layout of lights delivers strong visual presence. A balancing act of materials and proportions, the tiered bronze steel frame seamlessly flows into antique brass arms for a stark yet striking contrast. Each arm presents an opal glass globe, which range in size for added drama. Perfect for contemporary spaces, or for adding a modern touch to traditional settings. Additional pipe available (PIPE-447). Damp rated, though limited outdoor conditions may affect finish. Damp-rated, although limited covered outdoor areas may affect finish.
