

INDI LARGE CHANDELIER

Southwest inspiration meets unconventional design. Our traditional Indi is refreshed in "blown up" dimensions ideal for larger spaces. A white iron foundation is encased by matching white coconut wood, carved in a cactus-like arrangement. Each arm is embellished by clusters of coconut shell to further play up the perennial inspiration. The unique shape conceals eight bulbs that brilliantly illuminate a space, while working in tandem to create even more brilliant shadow play. Finish will vary.
