TOOLS NEEDED (Not Included):

1 Screwdriver

These instructions are provided for safety. It is very important that they are read carefully and completely before beginning installation.

We strongly suggest that all hard-wired fixtures must be installed by a professional electrician.

TO ASSEMBLE:

1. Shut off the main electrical supply from the main fuse box/circuit breaker.

2. Position the fixture in desired location on wall. The fixture's mounting plate(A) features (4) holes for screw mounting. Mark these spots on the wall with a pencil to drill holes. Drill 4 holes at these spots and insert anchors (C) into the drilled holes.

3. Attach the mounting plate (A) to the wall junction box by using the enclosed 2 mounting screws (C) & 4 Strengthen screws(D) and tighten screws with screwdriver.

4. Connect ground wire from wall to ground wire from lamp using wire caps(F).

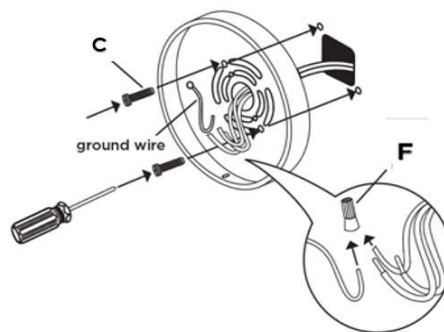

5. Attach house wire to lamp wires as shown. Fasten the pairs together with a wire caps(F).

DO NOT REVERSE THE HOT AND NEUTRAL CONNECTIONS OR SAFETY WILL BE COMPROMISED.

6. Attach backplate (E) to the mounting plate (A) and secure with enclosed 4 canopy screws(G).

7. Install 2 light bulbs (J) into socket (each G9 LED 6W – bulb is not included).

8. Attach the ceramic shade (H) and rubber pads (I) to the back plate (E) and secure them with the enclosed 2 glass shades (K) until tight.

CARE INSTRUCTIONS:

Wipe with a soft, dry cloth. To protect finish, avoid the use of chemicals and household cleaners.
