# 3666VN
## DROP-IN

### Key Attributes
Shape: ....................................................RECTANGULAR
Material: ..................................................ACRYLIC
Soaker Weight: ....................................135 lbs
Jetted Weight: .....................................165 lbs
Average Fill Capacity*: .....................65-75 gal

*Estimated with occupant inside. May vary based on occupant's volume.

### Required Electrical          Service 110v
Air Bath or Whirlpool........................1x 15 amp GFCI
Whirlpool w/ Inline Heater..............1x 20 amp GFCI
Whirlpool & Air Jetted......................1x 20 amp GFCI
Soaker....................................................n/a

### Available Therapy Systems
3666VN(S)..........................Non-Jetted Soaking
3666VNW...........................Whirlpool Jetted
3666VNA ...........................Air Jetted
3666VND...........................Whirlpool & Air Jetted
3666VND*X.......................Whirlpool & Air Jetted Deluxe

### Key Measurements (inches)
Overall Outer: ...................**66** L x **35.625** W x **23** H
Overall Interior: ...............**57.375** L x **26.625** W x **19.75** H
Interior Base: ....................**47.25** L x **23.5** W
Built-in Seat: .....................n/a
Soaking Depth: ................15.75
Drain to Side Wall: ..........17.7
Drain to Nearest Wall: ....8.5
Lip Size: ............................2
Deck Space: .......................4.375
Tile Flange:........................n/a
Arm Rest: ..........................n/a

## It is vital that tub is completely level for drain to work properly.

**Compliance:** Uniform Plumbing Code UPC®;; International Plumbing Code IPC®; ADA

**Standards:** ASME A112.19.15; CSA C22.2 No. 218.2-15; UL 1795, 5th Edition Issued September 02, 2016 including revisions through August 25, 2017

**Certifeid:** UPC,EGS

- **IMPORTANT!** TEST THE TUB'S DRAIN AND JETS (if any) BEFORE PERMANENT INSTALLATION!
- **INSPECT THE TUB WHEN RECEIVED!** Report any damages or missing parts within 5 business days of delivery date.
- Before ordering or installing, please consider future access to equipment.
- **Please measure tub on-site before building tub surrounding!**
- Jet, pump & blower locations are predetermined and cannot be changed.
- Tub door must remain closed when not in use.

- Please note that installer(s) must be certified or warranty will be voided.
- Measurements are subject to a +/- .5" variance and subject to change without notice. Measurements here in supersede all other published specs prior to publication date shown below.
- Inline heater (if included) is designed to maintain water temperature during operation. It will not heat cold water to desired bathing temperature.
- Product must be registered for warranty activation. See user manual or visit SWCORP.com/register for more information.
