## APPLIANCE SAFETY

**Your safety and the safety of others are very important.**

We have provided many important safety messages in this manual and on your appliance. Always read and obey all safety messages.

This is the Safety Alert Symbol. This symbol alerts you to potential hazards that can kill or injure you and others. All safety messages will follow the Safety Alert Symbol and either the words "DANGER", "WARNING" or "CAUTION".

Danger means that failure to heed this safety statement may result in severe personal injury or death.

Warning means that failure to heed this safety statement may result in extensive product damage, serious personal injury, or death.

Caution means that failure to heed this safety statement may result in minor or moderate personal injury, or property or equipment damage.

All safety messages will alert you do what the potential hazard is, tell you how to reduce the chance of injury, and let you know what can happen if the instructions are not followed.

## IMPORTANT SAFEGUIDES

Before the appliance is used, it must be properly positioned and installed as described in this manual, so read the manual carefully. To reduce the risk of fire, electrical shock or injury when using the appliance, follow basic precaution, including the following:

### **DANGER**

- Plug into a grounded 3-prong outlet, do not remove grounding prong, do not use an adapter, and do not use an extension cord.
- Replace all panels before operating.
- It is recommended that a separate circuit, serving only your appliance be provided. Use receptacles that cannot be turned off by a switch or pull chain.
- Never clean appliance parts with flammable fluids. These fumes can create a fire hazard or explosion. And do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion.
- Before proceeding with cleaning and maintenance operations, make sure the power line of the unit is disconnected.
- Do not connect or disconnect the electric plug when your hands are wet.
- Unplug the appliance or disconnect power before cleaning or servicing. Failure to do so can result in electrical shock or death.
- Do not attempt to repair or replace any part of your appliance unless it is specifically recommended in this material. All other servicing should be referred to a qualified technician.

### **WARNING**

FOLLOW WARNING CALL OUTS BELOW ONLY WHEN APPLICABLE TO YOUR MODEL

- Use two or more people to move and install appliance. Failure to do so can result in back or other injury.
- To ensure proper ventilation for your appliance, the front of the unit must be completely unobstructed. Choose a well-ventilated area with temperatures above 60°F (16°C) and below 90°F (32°C). This unit must be installed in an area protected from the element, such as wind, rain, water spray or drips.
- The appliance should not be located next to ovens, grills or other sources of high heat.
- The appliance must be installed with all electrical, water and drain connections in accordance with state and local codes. A standard electrical supply (115 V AC only, 60 Hz), properly grounded in accordance with the National Electrical Code and local codes and ordinances is required.
- Do not kink or pinch the power supply cord of appliance.
- The fuse (or circuit breaker) size should be 15 amperes.
- It is important for the appliance to be leveled in order to work properly. You may need to make several adjustments to level it.
- Never allow children to operate, play with or crawl inside the appliance.
- Do not use solvent-based cleaning agents or abrasives on the interior. These cleaners may damage or discolor the interior.
- Do not use this apparatus for other than its intended purpose.

---

## HELP US HELP YOU...

### Read this guide carefully.

It is intended to help you operate and maintain your new unit properly.

Keep it handy to answer your questions. If you don't understand something or you need more assistance, please call:

**Avanti Customer Service**  
**800-220-5570**

Keep proof of original purchase date (such as your sales slip) with this guide to establish the warranty period.

### **CAUTION:**

**THESE UNITS ARE NOT  
DESIGNED FOR THE STORAGE  
OF MEDICINE OR OTHER  
MEDICAL PRODUCTS.**

### Write down the model and serial numbers.

You'll find them on a plate located on the rear outside wall of unit.

Please write these numbers here:

\_\_\_\_\_  
Date of Purchase

\_\_\_\_\_  
Model Number

\_\_\_\_\_  
Serial Number

Use these numbers in any correspondence or service calls concerning your unit.

If you received a damaged unit, immediately contact the dealer (or builder) that sold you the unit.

Save time and money. Before you call for service, check the Troubleshooting Guide. It lists causes of minor operating problems that you can correct yourself.

---

## IF YOU NEED SERVICE

We're proud of our service and want you to be pleased. If for some reason you are not happy with the service you receive, here are some steps to follow for further assistance.

FIRST, contact the people who serviced your unit. Explain why you are not pleased. In most cases, this will solve the problem.

NEXT, if you are still not pleased, write all the details, including your telephone number, and send it to:

**Customer Service**  
**Avanti Products**  
**10880 NW 30 Street**  
**Miami, FL 33172 USA**

## IMPORTANT SAFETY INSTRUCTIONS

 <b>WARNING</b> 	To reduce the risk of fire, electrical shock, or injury when using your appliance, follow these basic precautions:
<ul style="list-style-type: none"><li>• Read all instructions before using the appliance.</li><li>• <b>DANGER or WARNING:</b> Risk of child entrapment. Child entrapment and suffocation are not problems of the past. Junked or abandoned appliances are still dangerous . . . even if they will “just sit in the garage a few days”.</li><li>• <b>Before you throw away your old appliance:</b> Take off the door. Leave the shelves in place so that children may not easily climb inside.</li><li>• Never allow children to operate, play with, or crawl inside the appliance.</li><li>• Never clean appliance parts with flammable fluids. The fumes can create a fire hazard or explosion.</li><li>• Do not store or use gasoline or any other flammable vapors and liquids in the vicinity of this or any other appliance. The fumes can create a fire hazard or explosion.</li></ul> <p style="text-align: center;">-Save these instructions-</p>	

### ➤ **ELECTRICAL CONNECTION**

 <b>Warning</b> 
Improper use of the grounded plug can result in the risk of electrical shock. If the power cord is damaged, have it replaced by an authorized Avanti Products service center.

This appliance should be properly grounded for your safety. The power cord of this appliance is equipped with a three-prong plug which mates with standard three prong wall outlets to minimize the possibility of electrical shock.

Do not under any circumstances cut or remove the third ground prong from the power cord supplied. For personal safety, this appliance must be properly grounded.

This appliance requires a standard 115/120 Volt AC ~/60Hz electrical ground outlet with three-prong. Have the wall outlet and circuit checked by a qualified electrician to make sure the outlet is properly grounded. When a standard 2-prong wall outlet is encountered, it is your responsibility and obligation to have it replaced with a properly grounded 3-prong wall outlet.

The cord should be secured behind the appliance and not left exposed or dangling to prevent accidental injury.

The appliance should always be plugged into its own individual electrical outlet which has a voltage rating that matches the rating label on the appliance. This provides the best performance and also prevent overloading house wiring circuits that could cause a fire hazard from overheated. Never unplug the appliance by pulling the power cord. Always grip the plug firmly and pull straight out from the receptacle. Repair or replace immediately all power cords that have become frayed or otherwise damaged. Do not use a cord that shows cracks or abrasion damage along its length or at either end. When moving the appliance, be careful not to damage the power cord.

### ➤ **EXTENSION CORD**

Because of potential safety hazards under certain conditions, it is strongly recommended that you do not use an extension cord with this appliance. However, if you must use an extension cord it is absolutely necessary that it be a UL/CUL-Listed, 3-wire grounding type appliance extension cord having a grounding type plug and outlet and that the electrical rating of the cord be 115 volts and at least 10 amperes.

## INSTALLATION INSTRUCTIONS

### ➤ **BEFORE USING YOUR APPLIANCE**

- Remove the exterior and interior packing.
- Check to be sure you have all of the following parts:

Model WBV19DZ Wine / Beverage Center		Model WCV38DZ Dual Zone Wine Chiller	
1	Instruction Manual	1	Instruction Manual
5	Wine Bottle Shelves (Wire)	10	Wine Bottle Shelves (Wire)
1	Wine Bottle Small Shelf (Wire)	2	Wine Bottle Shelf / Basket (Wire)
3	Beverage Shelves (Glass)	4	Keys
1	Storage Basket (Wire)		
4	Keys		

- Before connecting this appliance to the power source, let it stand upright for approximately 2 hours. This will reduce the possibility of a malfunction in the cooling system from handling during transportation.
- Clean the interior surface with lukewarm water using a soft cloth.

### ➤ **INSTALLATION OF YOUR APPLIANCE**

- This appliance is designed to be for free standing installation or built-in (fully recessed).
- Place your appliance on a floor that is strong enough to support it when it is fully loaded. To level your appliance, adjust the front leveling legs at the bottom of the appliance.
- Locate the appliance away from direct sunlight and sources of heat (stove, heater, radiator, etc.). Direct sunlight may affect the acrylic coating and heat sources may increase electrical consumption. Extreme cold ambient temperatures may also cause the unit not to perform properly.
- Avoid locating the unit in moist areas.
- Plug the appliance into an exclusive, properly installed-grounded wall outlet. Do not under any circumstances cut or remove the third (ground) prong from the power cord. Any questions concerning power and/or grounding should be directed toward a certified electrician or an authorized Avanti Products service center.

### ➤ **BUILT – IN CABINET INSTRUCTIONS**

This unit is designed for both built-in or free standing installation. If you plan to use this unit in a built-in application please follow the requirements shown to the right.

Cabinet Opening Dimensions		
	IN (min)	CM (min)
Width	24"	61 cm
Depth	24"	61 cm
Height	34 1/2"	87.6 cm

➤ **INSTALLING STAINLESS STEEL HANDLE**

This wine chiller includes a stainless steel handle that is not required to operate this unit. To install the handle please follow the below instructions:

1. Pull away the door gasket in the area where the handle is to be installed as shown below in Illustration # 1. The gasket is easily displaced by hand, no tools are necessary.
2. Align the handle with the screws pre-installed on the backside of the door. Tighten the screws using a Phillips head screwdriver until the handle sets both flush and secured tightly against the door frame. (DO NOT overtighten as this will cause damage to the handle assembly).
3. Replace the door gasket to its original position.

① Gasket

② Screwdriver

③ S/S Handle

## MODEL WBV19DZ

### OPERATING YOUR APPLIANCE

It is recommended you install the appliance in a place where the ambient temperature is between 72-78 degrees Fahrenheit. If the ambient temperature is above or below recommended temperatures, the performance of the unit may be affected. For example, placing your unit in extreme cold or hot conditions may cause interior temperatures to fluctuate. The range of 40-65 degrees Fahrenheit may not be reached.

Temperature Ranges by Side / Zone		
WINE Chiller (LEFT SIDE)	40° - 65° F	5° - 18° C
BEVERAGE COOLER (RIGHT SIDE)	39° - 55° F	4° - 13° C

#### Recommended Temperatures for Chilling Wine.

Red Wines	58 - 65 °F	15 - 18 °C
Dry / White Wines	48 - 57 °F	10 - 14 °C
Rose Wines	49 - 51 °F	9 - 11 °C
Sparkling Wines	40 - 47 °F	5 - 8 °C

#### ➤ **CONTROL PANEL LOCK**

- Your appliance is equipped with an automatic Control panel lock function. This function will prevent any unwanted changes to your temperature or power settings.
- The lock function will activate automatically 12 seconds after the last time a button is pushed on the control panel.
- To unlock the control panel lock press and hold the (**UP**) and the (**DOWN**) buttons for 3 seconds the control panel will beep and blink once indicating that the control panel is active and the settings can be changed.

You can select temperature display setting from Fahrenheit to Celsius degree by pushing the **°F/°C** button/mark. Fahrenheit or Celsius degrees indicator will appear in blue color in the temperature display window for each zone.

#### ➤ **ON/OFF POWER**

To turn ON or OFF the appliance, press the  button/mark and hold for 3 seconds.

### ➤ SETTING THE TEMPERATURE CONTROL

You can control the internal temperature of each side/zone independently by using the control panel for that side.

You can press the left side **UP** and **DOWN** buttons/marks to control the internal temperature of each respective side / zone.

The degrees indicators will appear in the display window.

- The temperature that you desire to set will increase 1°F or 1°C if you push the **UP** button/mark once, on the contrary the temperature will decrease 1°F or 1°C if you push the **DOWN** button/mark once.

#### **NOTE:**

- If the unit is unplugged, power lost, or turned off, you must wait 3 to 5 minutes before restarting the unit. If you attempt to restart before this time delay, the appliance will not start.
- When you use the appliance for the first time or restart the appliance after having been shut off for a long time, there could be a few degrees variance between the temperature you select and the one indicated on the LED readout. This is normal and it is due to the length of the activation time. Once the appliance is running for a few hours everything will be back to normal.

### ➤ STORAGE

Many bottles may differ in size and dimensions. As such the actual number of bottles you may be able to store may vary.

#### **NOTE:**

Capacity:

Wine Chiller / LEFT SIDE / ZONE:	19 Standard bottles
Beverage Center / RIGHT SIDE / ZONE:	66 Standard Cans (54 Cans on the shelves / 12 Cans in the basket)

Bottle capacities are approximate maximums when storing traditional Bordeaux 750 ML bottles and include bulk storage.

### ➤ INTERIOR LIGHT

- Interior lights are available in both zones.
- You can turn the interior light on in each zone by pushing the button marked with the “bulb” symbol  or touch the mark . The lights will turn off automatically if it remains ON for 10 minutes or more. You have to push the button marked with the “bulb” symbol  or touch the mark  again and the light will turn back on.

### ➤ DOOR LOCK

Your unit is provided with a lock and key combination on each side..

The keys are located inside the plastic bag that contains the User's Guide. Insert the key into the lock and turn it counterclockwise to unlock the door. To lock the door do the reverse operation making sure metal pin is engaged completely. Remove the key and place it in a secure place for safekeeping.

## MODEL WCV38DZ

### OPERATING YOUR APPLIANCE

To lock the door do the reverse operation making sure metal pin is engaged completely. Remove the key and place it in a secure place for safekeeping.

## CARE AND MAINTENANCE

### ➤ CLEANING YOUR APPLIANCE

- Turn off the power, unplug the appliance, and remove all items including shelves.
- Wash the inside surfaces with a warm water and baking soda solution. The solution should be about 2 tablespoons of baking soda to a quart of water.
- Wash the shelves with a mild detergent solution.
- Wring excess water out of the sponge or cloth when cleaning area of the controls, or any electrical parts.
- Wash the outside cabinet with warm water and mild liquid detergent. Rinse well and wipe dry with a clean soft cloth.
- Do not use steel wool or steel brush on the stainless steel. These will contaminate the stainless steel with steel particles and rusting may occur.

### ➤ POWER FAILURE

- Most power failures are corrected within a few hours and should not affect the temperature of your appliance if you minimize the number of times the door is opened. If the power is going to be off for a longer period of time, you need to take the proper steps to protect your contents.

### ➤ MOVING YOUR APPLIANCE

- Remove all items.
- Securely tape down all loose items (shelves) inside your appliance.
- Tape the door shut.
- Be sure the appliance stays secure in the upright position during transportation. Also protect outside of appliance with a blanket, or similar item.

### ➤ ENERGY SAVING TIPS

- The appliance should be located in the coolest area of the room, away from heat producing appliances, and out of the direct sunlight.

### ➤ CHARCOAL FILTRATION SYSTEM

Your wine is a living object that breathes through the cork of its bottle. In order to preserve the quality and taste of your fine wines, they must be stored at the ideal temperature and ambient conditions. Your cellar is equipped with an active charcoal filtration system to ensure air purity, cooling efficiency, and to maintain an odor free cabinet for the storage of your fine wines. The filter assembly is located at the rear panel inside your cellar.

Keep in mind, that this filter must be changed every 12 months.

To replace your filter:

1	Remove the bottles / cans stored on the two (2) shelves in front of the filter.	
2	Remove the shelves and set aside to be replaced once you have changed the filter	
3	Hold the filter and turn it at 90 degrees in the anti-clockwise direction and then pull it out.	
4	Remove the existing filter and replace with a new one.	
5	Put the new filter into the hole and then turn the filter at 90 degrees in clockwise direction..	

## PROBLEMS WITH YOUR APPLIANCE?

You can solve many common problems easily, saving you the cost of a possible service call. Try the suggestions below to see if you can solve the problem before calling the servicer.

### TROUBLESHOOTING GUIDE

PROBLEM	POSSIBLE CAUSE
Appliance does not operate.	Not plugged in. The appliance is turned off. The circuit breaker tripped or a blown fuse.
Appliance is not cold enough.	Check the temperature control setting. External environment may require a higher setting. The door is opened too often. The door is not closed completely. The door gasket does not seal properly.
Turns on and off frequently.	The room temperature is hotter than normal. A large amount of contents has been added to the unit. The door is opened too often. The door is not closed completely. The temperature control is not set correctly. The door gasket does not seal properly.
The light does not work.	Not plugged in. The circuit breaker tripped or a blown fuse. The light button is "OFF".
Vibrations.	Check to assure that the appliance is level.
The appliance seems to make too much noise.	The rattling noise may come from the flow of the refrigerant, which is normal. As each cycle ends, you may hear gurgling sounds caused by the flow of refrigerant in your appliance. Contraction and expansion of the inside walls may cause popping and crackling noises. The appliance is not level.
The door will not close properly.	The appliance is not level. The gasket is dirty. The shelves are out of position.
Display flashes Error message "E0"	Connection failure – there is a wire or component that is not connected correctly. Contact the Avanti Service Department – 1 – 800 – 220 – 5570
Display flashes Error message "E1"	Temperature sensor failure. Contact the Avanti Service Department – 1 - 800 – 220 - 5570
Display flashes Error message "E2"	Defrost sensor (Coil Sensor) failure. Contact the Avanti Service Department – 1 - 800 – 220 - 5570

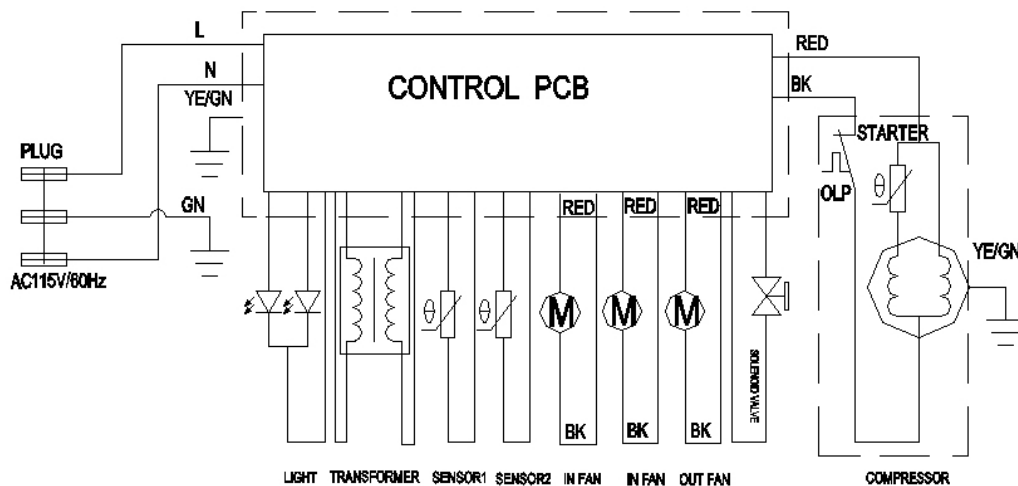

## SERVICE FOR YOUR APPLIANCE

We are proud of our customer service organization and the network of professional service technicians that provide service on your Avanti appliances. With the purchase of your Avanti appliance, you can have the confidence that if you ever need additional information or assistance, the Avanti Products Customer Service team will be here for you. Just call us toll-free.

### AVANTI PRODUCTS CUSTOMER SERVICES

### WIRING DIAGRAM

<b>YOUR AVANTI PRODUCTS WARRANTY</b>	Staple your sales receipt here. Proof of original purchase date is needed to obtain service under warranty.
<b><u>WHAT IS COVERED – LIMITED ONE-YEAR WARRANTY</u></b>	
Avanti Products warrants that the product is free from defects in materials and/or workmanship for a period of twelve (12) months from the date of purchase by the original owner. The foregoing timeline begins to run upon the date of purchase, and shall not be stalled, tolled, extended, or suspended for any reason whatsoever unless described in detail in the warranty document. For one year from the date of purchase by the original owner, Avanti products will, at its option, repair or replace any part of the product which proves to be defective in material or workmanship under normal use. Avanti Products will provide you with a reasonably similar product that is either new or factory refurbished. During this period Avanti Products will provide all parts and labor necessary to correct such defects free of charge, so long as the product has been installed and operated in accordance with the written instructions in this manual. In rental or commercial use, the warranty period is 90 days. All Avanti appliances of 4.2 cubic feet capacity or less must be brought/sent to the appliance service center for repair.	
<b><u>LIMITED SECOND THROUGH FIFTH YEAR WARRANTY</u></b>	
For the second through the fifth year from the date of original purchase, Avanti Products will provide a replacement compressor free of charge due to a failure. You are responsible for the service labor and freight charges. In rental or commercial use, the limited compressor warranty is one year and nine months. Costs involved to move the product to the service center and back to the user's home, as maybe required, are the user's responsibility.	
<b><u>WARRANTY EXCLUSIONS / WHAT IS NOT COVERED:</u></b>	
The warranty coverage described herein excludes all defects or damage that are not the direct fault of Avanti Products, including without limitation, one or more of the following:	
<ul style="list-style-type: none"> <li>● A failure to comply with any applicable state, local, city, or county electrical, plumbing and/or building codes, regulations, or laws, including failure to install the product in strict conformity with local fire and building codes and regulations.</li> <li>● Any external, elemental and/or environmental forces and factors, including without limitation, rain, wind, sand, floods, fires, mud slides, freezing temperatures, excessive moisture or extended exposure to humidity, lightning, power surges, structural failures surrounding the appliance, and acts of God.</li> </ul>	
<ul style="list-style-type: none"> <li>● Content losses of food or other content due to spoilage.</li> <li>● Incidental or consequential damages</li> <li>● Parts and labor costs for the following will not be considered as warranty: <ul style="list-style-type: none"> <li>● Evaporator doors, door springs, and/or frames.</li> <li>● Inner door panels, door shelves, door rails, and/or door supports.</li> <li>● Chest freezer lid liners.</li> <li>● Vegetable crispers.</li> <li>● Light bulbs and/or plastic housing.</li> <li>● Plastic cabinet liners.</li> <li>● Punctured evaporator that voids the warranty on the complete sealed system.</li> </ul> </li> </ul>	<ul style="list-style-type: none"> <li>● Shipping and handling costs associated with the replacement of the unit.</li> <li>● Repairs performed by unauthorized servicers.</li> <li>● Service calls that are related to external problems, such as abuse, misuse, inadequate electrical power, accidents, fire, floods, or any other acts of God.</li> <li>● Failure of the product if it is used for other than it intended purpose.</li> <li>● The warranty does not apply outside the Continental USA.</li> <li>● Surcharges including but not limited to, any after hour, weekend, or holiday service calls, tolls, ferry trip charges, or mileage expense for service calls to remote areas.</li> </ul>
In no event shall Avanti Products have any liability or responsibility whatsoever for damage to surrounding property, including cabinetry, floors, ceilings, and other structures and/or objects around the product. Also excluded from this warranty are scratches, nicks, minor dents, and other cosmetic damages on external surfaces and exposed parts; Products on which the serial numbers have been altered, defaced or removed; service visits for customer education, or visits where there is nothing wrong with the product; correction of installation problems (you are solely responsible for any structure and setting for the product, including all electrical, plumbing and/or other connecting facilities, for proper foundation/flooring, and for any alterations including without limitation cabinetry, walls, floors, shelving etc., as well as the resetting of breakers or fuses.	
<b><u>OUT OF WARRANTY PRODUCT</u></b>	
Avanti Products is under no obligation, at law or otherwise, to provide you with any concessions, including repairs, pro-rates, or product replacement, once this warranty has expired.	

WARRANTY – REFRIGERATION - COMPRESSOR

## **INSTRUCCIONES DE SEGURIDAD**

### **ATENCION**

#### **INSTRUCCIONES PARA LA CONEXION A TIERRA**

Este aparato electrodoméstico debe estar conectado a tierra. En caso de un cortocircuito eléctrico, la conexión a tierra reduce el riesgo de choque eléctrico proporcionando un cable a tierra con una enchufe de conexión a tierra. Este enchufe debe estar conectado en un tomacorriente instalado correctamente y conectado a tierra.

**ADVERTENCIA** – El uso inadecuado del enchufe de conexión a tierra puede resultar en un riesgo de choque eléctrico. Consulte con un electricista o persona de reparaciones competente si no comprenden bien las instrucciones de conexión a tierra o si existe alguna duda sobre si el aparato esta conectado a tierra correctamente.

#### **NO USE UN CORDON DE PROLONGACION ELECTRICA**

Use un tomacorriente de pared exclusivo. No conecte su electrodoméstico a cordones de prolongación eléctrica o junto a cualquier otro electrodoméstico en el mismo tomacorriente de pared.

#### **ADVERTENCIA IMPORTANTE:**

Un **electrodoméstico** vacío es una atracción muy peligrosa para los niños. Saque todas las juntas, pestillos, tapas o puerta de todo electrodoméstico que no esté en uso, o tome alguna medida para asegurar que no presente peligro.

### **INSTRUCCIONES DE INSTALACION**

Saque los embalajes exteriores, limpie bien el exterior con un paño suave seco, y el interior con un paño húmedo y tibio. Evite colocar el electrodoméstico cerca de una fuente de calor, luz de sol directa, o lugar húmedo.

#### **Ubicación**

1. Seleccione un lugar con su piso fuerte y nivelado.
2. Evite la luz directa del sol o calor. La luz directa del sol puede afectar la capa de acrílico. Las fuentes de calor en su proximidad provocarán un consumo mayor de electricidad.

### **OPERACION**

Para evitar vibraciones, el compartimiento interior debe estar bien nivelado. La temperatura variará dependiendo de la cantidad de botellas almacenadas y la frecuencia con que se abre la puerta.

Cuando el electrodoméstico no se use por un período largo, desconecte el enchufe y deje la puerta entreabierta.

Nota: Espere entre 3 a 5 minutos antes de volver a encender si el funcionamiento ha sido interrumpido.

Se recomienda que Ud coloque el electrodoméstico en un lugar donde la temperatura ambiental se mantenga entre 23-25 grados centígrados.

Si la temperatura ambiental oscila afuera de esos límites, pueda afectar la temperatura de la caja. Por ejemplo, si su unidad está situada en lugares donde hay temperaturas muy frías o calientes también puede afectar la temperatura de la caja.

### **COMO INSTALAR LA MANIJA**

**Su unidad viene equipada con una manija de acero inoxidable que no es necesario instalar para operar la unidad.**

**Para instalarla, separe el sello del posterior de la puerta.**

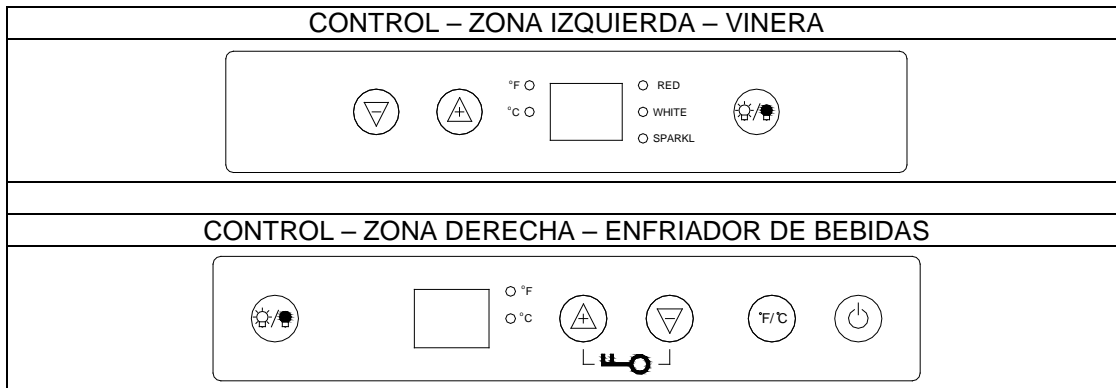

**Coloque la manija en su lugar designado utilizando los tornillos Phillips instalados previamente en la factoria. Apriete los tornillos utilizando un destornillador Phillips (+).**

**Vuelve el sello a su posición original.**

Temperaturas recomendadas para enfriar vinos:

Vinos tintos	15° - 18° C	58 – 65° F
Vinos blanco/seco	9° - 14° C	48 – 57° F
Vinos rosé/Zinfandel	10° - 11° C	49 – 51° F
Vinos blanco/espumante	5° - 8° C	40 – 47° F

Modelo: WBV19DZ – Vinera / Enfriador de Bebidas.

**ENCENDIDO/APAGADO**

Para apagar el electrodoméstico, presione el botón (  ) y manténgalo presionado por un mínimo de 3 segundos.

**PANEL DE CONTROL DE SEGURIDAD**

- El electrodoméstico está equipada con un Panel de Control de Seguridad de función automática. Esta función previene cualquier cambio no deseado en el control de temperatura.
- La función de seguridad se activará automáticamente 12 segundos después de la última vez que cualquier botón del Panel de Control sea presionado.
- Para poder hacer cambios en el Panel de Control, presione y mantenga presionados los botones (  ) y (  ) por 3 segundos, el Panel del Control emitirá un sonido de “Beep” y parpadeará una vez, indicando que el Panel de Control ha sido activado y que puede efectuar cambios en los controles.

Ud puede cambiar de grados Centígrados a Fahrenheit o viceversa, oprimiendo el boton marcado °F/C. En la pantalla digital para cada zona aparecerán los grados en color azul.

Rangos de temperature por zona		
Vinera (Zona Izquierda)	40° - 65° F	5° - 18° C
Enfriador de bebidas (Zona Derecha)	39° - 55° F	4° - 13° C

**Operación**

Oprima los botones marcado “ “ y “ “ localizados en el panel de controles para programar la temperatura. Al presionar los botones marcados “ “ o “ “ por primera vez, el indicador en la pantalla mostrará la temperatura programada de fábrica o la más reciente.

Oprima el botón marcado (  ) una vez y la temperatura aumentará un grado. Si Ud oprime el botón marcado (  ) una vez la temperatura bajará un grado.

**Luz interior**

La luz interior se controla manualmente y no funciona al abrir ni cerrar la puerta. Para prender o apagar la luz, presione el boton marcado (  ) de la luz ubicado en el panel de control. Si la luz está prendida, por más de 10 minutos, se apagará automáticamente.

## Modelo: WCV38DZ – Vinera de Dos Zonas

### ENCENDIDO/APAGADO

Para apagar el electrodoméstico, presione el botón (  ) y manténgalo presionado por un mínimo de 3 segundos.

### PANEL DE CONTROL DE SEGURIDAD

- El electrodoméstico está equipada con un Panel de Control de Seguridad de función automática. Esta función previene cualquier cambio no deseado en el control de temperatura.
- La función de seguridad se activará automáticamente 12 segundos después de la última vez que cualquier botón del Panel de Control sea presionado.
- Para poder hacer cambios en el Panel de Control, presione y mantenga presionados los botones (  ) y (  ) por 3 segundos, el Panel del Control emitirá un sonido de “Beep” y parpadeará una vez, indicando que el Panel de Control ha sido activado y que puede efectuar cambios en los controles.

Ud puede cambiar de grados Centígrados a Fahrenheit o viceversa, oprimiendo el boton marcado °F/C. En la pantalla digital para cada zona aparecerán los grados en color azul.

Rangos de temperatura por zona		
Zona Izquierda	40° - 65° F	5° - 18° C
Zona Derecha	40° - 65° F	5° - 18° C

### Operación

Oprima los botones marcado “” y “” localizados en el panel de controles para programar la temperatura. Al presionar los botones marcados “” o “” por primera vez, el indicador en la pantalla mostrará la temperatura programada de fábrica o la más reciente.

Oprima el botón marcado (  ) una vez y la temperatura aumentará un grado. Si Ud oprime el botón marcado (  ) una vez la temperatura bajará un grado.

### Luz interior

La luz interior se controla manualmente y no funciona al abrir ni cerrar la puerta. Para prender o apagar la luz, presione el boton marcado (  ) de la luz ubicado en el panel de control. Si la luz está prendida, por más de 10 minutos, se apagará automáticamente.

### COMO INSTALAR LA MANIJA

Su unidad viene equipada con una manija de acero inoxidable que no es necesario instalar para operar la unidad.

Para instalarla, separe el sello del posterior de la puerta.

Coloque la manija en su lugar designado utilizando los tornillos Phillips instalados previamente en la factoria. Apriete los tornillos utilizando un destornillador Phillips (+). Vuelve el sello a su posición original.

### **Cerradura de la puerta**

Su unidad viene equipada con una combinación de cerradura y llave. Las llaves (2) están dentro de la bolsa plástica junto al manual de instrucciones. Introduzca la llave en la cerradura y gírela hacia la izquierda para abrir la puerta. Para cerrarla, gire la llave hacia la derecha. Quite la llave y colóquela en un lugar seguro para evitar que se pierda.

### **Descongelación**

Su refrigerador para vinos ha sido diseñado con un sistema de descongelación de "ciclo automático".

Las superficies refrigeradas del compartimiento para vinos se descongela automáticamente, durante el ciclo "apagado" del control de enfriamiento (termostato). El agua descongelada del compartimiento es eliminada automáticamente, encauzándola hacia una bandeja de goteo ubicado en el compresor. La transferencia de calor del compresor evapora el agua.

#### **ADVERTENCIA**

Asegúrese de tener la puerta abierta completamente si Ud desea remover las repisas o moverlas hacia adelante para extraer una botella.

#### **NOTA:**

Para remover las repisas corredizas, vacíe las repisas antes de sacarlas. Hálelas aproximadamente un tercio hacia afuera hasta que la marca en el raíl se alinee con el poste plástico en ambos lados. Levante cada repisa y sáquela suavemente de la unidad. Para reemplazar de nuevo la repisa, repita los pasos anteriores en dirección opuesta.

## **CUIDADO Y MANTENIMIENTO**

### **Limpieza**

Para limpiar el interior, use un paño suave con una solución de una cucharada de bicarbonato de sodio por cada cuarto de agua, o una solución de espuma de jabón suave, o un detergente suave. Para lavar las rejillas, sáquelas deslizándolas con cuidado, y use una solución de detergente suave; luego séquelas con un paño suave. Limpie el exterior con un paño húmedo suave y un poco de detergente suave o productos de limpieza para electrodomésticos.

### **Período de vacaciones**

Para períodos cortos de vacaciones, deje los controles en la posición normal. Durante ausencias más largas;

- (a) saque todo el contenido,
- (b) desconecte el electrodoméstico del tomacorriente,
- (c) limpie bien el electrodoméstico,
- (d) deje la puerta abierta para evitar la formación de condensación, moho u olores.

### **Corte de corriente**

La mayoría de los cortes de corriente se corrigen en una o dos horas y no afectarán las temperaturas del electrodoméstico. Sin embargo, Ud. deberá reducir la cantidad de veces que abra la puerta cuando la corriente esté apagada.

### **Si Ud. se muda**

Saque o asegure todos los artículos dentro del electrodoméstico. Para evitar que los tornillos nivelantes se averíen, gírelos completamente hacia la base.

## Algunas reglas importantes para el uso correcto del electrodoméstico.

- Las bebidas se deben guardar en botellas cerradas.
- No sobrecargue el compartimiento interior.
- No abra la puerta a menos que sea necesario.
- Si el electrodoméstico se guardará sin uso por períodos largos, se sugiere que, luego de una limpieza cuidadosa, se deje la puerta entreabierta para permitir que el aire circule dentro de la caja y evitar una posible formación de condensación, moho u olores.
- Nunca cubra los estantes de los compartimientos refrigerados con papel de aluminio o cualquier otro material para cubrir estantes que puedan obstruir la circulación del aire.

### ➤ **SISTEMA DE FILTRACION DE CARBON**

El vino es un objeto viviente y respira a través del corcho de la botella. Para conservar el sabor y calidad de sus vinos, deben ser almacenados en la temperatura y las condiciones ambientales ideales. Su vinera está equipada con un sistema de filtración de carbón para asegurar la pureza del aire, la eficiencia del enfriamiento, y mantener el interior de la unidad libre de olores. El filtro está localizado en el panel trasero del interior de la unidad.

Recuerde que el filtro necesita cambiarse cada 12 meses.

Como reemplazar el filtro de su vinera.

1	Remueva las botellas de las (2) repisas que cubren el filtro.	
2	Remueva las repisas y guárdelas hacia un lado para reponerlas después de reemplazar el filtro.	
3	Sujete el filtro y gírelo aproximadamente 90 grados hacia la izquierda. Retire el filtro hacia fuera.	
4	Remueva el filtro existente y reemplácelo con uno nuevo.	
5	Coloque el filtro en posición y gírelo aproximadamente 90 grados hacia la derecha.
