Metal Pad (J)

Installation Steps

Turn off the power at fuse or circuit box.

1. Attach the cross bar unit (A) to the outlet box with two mounting screws (B).

2. Pull out the source wires from the outlet box. Make wire connections using wire connectors (C) as follows:
   • Connect the hot wire (usually black insulation) from the fixture to the black wire from the power source.
   • Connect the neutral wire (usually white insulation) from the fixture to the white wire from the power source.
   • Attach the fixture grounding wire (usually green with the insulation or bare wire) to the cross bar unit (A) with green ground screw. Then, depending on local code, connect it to the house ground wire with the wire connector (C).
   Carefully put all of the wires back into the outlet box.

3. Attach the ceiling pan to the cross bar unit (A) by inserting the two screws, then secure it with the bolt nuts (D) .

4. Install the bulbs (not included). See relamping label at socket area or packaging for maximum wattage allowed.
