

ASSEMBLY INSTRUCTION MODEL # ED0811201MK

All electrical components must be installed by a licensed electrician in accordance with the National Electric Code and the appropriate local electrical codes.

You will need 1- Medium base Type T bulb
60 Watts Recommended 100 Watts Max.
(Bulb included)

USE LED BULBS FOR EXTENDED
USE THIS FIXTURE IS WET RATED

How to Install

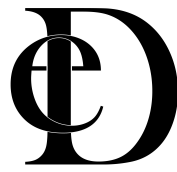

1. Place the mounting plate over the outlet box and mark the points on the wall surface at the center of the holes on the mounting plate.
2. Drill the holes at the marked points and insert the plastic wall anchors. Place the mounting plate over the outlet box and secure with the anchor screws.
3. Insert the glass panels into the frame and secure with the clips.
4. Place the cage over the mounting plate and secure with the screws
5. Install the bulb onto the socket

Glass Replacement:

Turn the glass clip down and carefully remove the glass that needs to be replaced

After securing the fixture to the wall, it is recommended that the top and side gaps, between the wall and the backplate, be sealed with a good quality waterproof caulk or silicone sealant (NOT INCLUDED).

WARNING: This product can expose you to Lead, which is known to the State of California to cause cancer and/or birth defects or reproductive harm. For more information go to www.P65Warnings.ca.gov.
