STANLEY

STANLEY MULTIFAMILY
Stand Out with STANLEY

TEMPO Lever
*Shown in Satin Nickel
with Classic Rose*

Attracting and retaining reliable tenants is a top priority for every property owner.

STANLEY—one of the nation's most trusted security brands—helps multifamily and mixed-use properties stand out with the stylish TEMPO Lever, a new Grade 2 mechanical lock for interior openings. With unique innovations like EasyPass and our stylized rose options, the TEMPO Lever is perfect for virtually every type of interior opening.

The TEMPO Lever suites with other STANLEY hardware products to provide a coordinated and consistent look throughout a building. With a complete line of interior and exterior solutions—Grade 1 and 2 deadbolts, common area access control solutions, exit devices, door closers, hinges and electronic deadbolts—STANLEY has everything you need for an opening in a mixed-use facility.

STANLEY—it's the only name you need to remember. **Simply STANLEY.**

Innovative Features

EasyPass™
Whether hands are arthritic, full of groceries or holding a young child, you can open the door much easier with EasyPass. This uniquely smart feature allows the door to open with less rotation of the lever. Not only is it more convenient, but EasyPass has greater durability as well.

Standard

Classic

Stylized Roses
All STANLEY locksets and deadbolts come with the option of a stylized rose for that extra touch. Mix and match roses to create the design you want. Stylized roses are an easy way to make an architectural statement—right at the point of entry. And they are another way to provide a coordinated design throughout an entire space.

Trusted experts. Proven reliability. Simply STANLEY.

TEMPO Tubular Lockset Specifications

Functions

Dummy	Surface mounted single dummy trim, no mechanical operation. Used for door pull or as matching inactive trim.	
Passage	Both levers always unlocked and free for immediate ingress and egress. (ANSI F75)	
Privacy	Push-button locking. Outside lever locked by depressing push-button on inside lever. Can be unlocked by using small screw driver on outside lever or by turning inside lever. Closing door does not release depressed push-button. Inside lever always free for immediate egress. (ANSI F76B)	
Entry	Push-button locking with key. Outside lever locked by key or depressing push-button on inside lever. Can be unlocked by key on outside lever or by turning inside lever. Closing door does not release depressed push-button. Inside lever always free for immediate egress. Deadlocking latchbolt. (ANSI F82A)
