

SenseME® is the cutting-edge technology behind the world's most advanced fans and lights. Yes, our products have a lot of fancy sensors and processors, but what really matters is that, once you set your preferences, SenseME automatically adjusts your fans and lights to keep your home feeling and looking exactly the way you want it to.

To get started with SenseME, download the Haiku mobile app from your preferred app store.

Learn more about SenseME Technology and the Haiku mobile app by visiting our website.

TECHNICAL SPECIFICATIONS

| COMPATIBLE PRODUCTS | INSTALLATION | WIRELESS FREQUENCY | WI-FI STANDARD |
|---------------------|--------------|--------------------|----------------|
| Haiku Indoor | Integrated | 2.4 GHz | 802.11 b/g/n |

Wi-Fi

Connect to your Haiku products with the Haiku Home mobile app for fan and light control and over-the-air updates.

Scheduling

Schedule your Haiku products to operate when — and how — you want.

Haiku Mobile App

Use the app to group multiple fans and lights or adjust their settings.

Sleep Mode

Sleep Mode lets you choose your ideal temperature or fan speed for the perfect snooze.

Motion Sensing

Built-in motion sensors turn our fans and lights on and off as you enter and leave the room.

Whoosh Mode

Whoosh® Mode varies the fan's speed to simulate a natural breeze.

Auto Comfort

Auto Comfort automatically adjusts fan speed as room conditions change, keeping you comfortable and lowering energy bills year-round.

Voice Control

Use simple voice commands to adjust fan and light settings with Amazon Alexa-enabled devices or the Google Assistant.

Smart Thermostats

Pair your Haiku fan with a smart thermostat to make saving energy even simpler.
