

HAIKU[®] COASTAL

THE FIRST STORM-READY FAN

HURRICANE WIND TEST

- ▶ Haiku Coastal survived **Category 5 hurricane-force winds** (163 mph) during performance and durability testing

SALT EXPOSURE TEST

- ▶ After undergoing **1000 hours of intense salt exposure**, Haiku Coastal's components, hardware, and motor were in perfect working condition

IP56 RATING

- ▶ Haiku Coastal received an **IP56 rating**, which indicates a superior level of protection against solids and liquids
- ▶ A solids rating of 5 means **dust, debris, and salt won't impact operation**
- ▶ A liquids rating of 6 means **water from heavy seas and rain won't harm the equipment**

"THIS FAN WAS PURPOSE BUILT TO WITHSTAND THE HARSHTEST COASTAL ENVIRONMENTS. FROM STAINLESS STEEL HARDWARE TO PATENTED SAFETY FEATURES, THE HAIKU COASTAL IS BUILT TO SURVIVE ANYTHING MOTHER NATURE THROWS ITS WAY."

DANIEL DALTON, LEAD ENGINEER AT BIG ASS FANS' RESEARCH AND DEVELOPMENT LAB

Endured more rigorous testing against the elements than any fan ever; backed by 3-year warranty

Corrosion-resistant hardware and sealed electronics, LED light, and canopy to keep water where it belongs—on the outside

Three ultra-durable blades that can handle the heat and won't fade in direct sunlight
