

BRIZO®

MYSTIX™ POWER BOOSTER

STANDARD SPECIFICATIONS:

- Includes UL Listed 12 VDC power supply and requires standard 120V wall outlet connection
- Includes one 10' control cable
- Use with the 8CN-600, 8CH-600 OR 8CB-600 digital control when a longer cable than 35' is needed. To extend the standard 35' cable, use the power adapter plus one of the following extension cables: 8GA-401, 8GA-403, 8GA-405. The power adapter will provide the necessary power boost for the longer cable run. Do not exceed 70' of cable length from the power booster to the control.
