

### **Where can I use my GoSpa Advanced/Advanced + travel bidet?**

The GoSpa Advanced/Advanced + travel bidet can be used anywhere you can find clean water. Use it backpacking, camping, in RVs, at hotels, gyms, and at work.

### **Do I need to fill my GoSpa Advanced/Advanced + travel bidet with any certain type of water?**

No. Cool or warm plain tap water from the nearest water faucet is perfectly fine. Can't find tap water? Water from a lake or stream will work, too.

### **How do I clean my GoSpa Advanced/Advanced + travel bidet? Can I put it in the dishwasher?**

To clean your GoSpa Advanced/Advanced + travel bidet, simply use household dish soap and water.

### **What if my pop-up nozzle won't stay down?**

You are pressing the nozzle too hard. Simply push the pop-up nozzle down gently and the nozzle will lock in.

### **Can I leave water in it?**

The GoSpa Advanced/Advanced + is meant to be emptied after each use to ensure you have fresh wash every time! Make sure to empty your GoSpa Advanced/Advanced + before you place it in the travel bag.

### **What is included?**

- The bidet reservoir/holder
- The bidet top/nozzle
- A convenient travel bag for storage

### **Where is it made?**

The GoSpa Advanced/Advanced + are made in China.

### **What is the difference between the Advanced and the Advanced+? And what colors do they come in?**

The GoSpa Advanced/Advanced + is 400 ml (13.5 fl oz) and the GoSpa Advanced+ is 500 ml (16.9 fl oz). Both sizes are available in Green, Blue, Grey and Pink.

### **What is the travel bag? And what is it made of? Is it machine washable?**

Use the carrying bag to store your GoSpa Advanced/Advanced + in your purse, backpack, briefcase, gym bag or suitcase to prevent your GoSpa from scratching or any wear. The carrying bag is made out 100% polyester. Just remember, the GoSpa should be emptied after every wash, and the carrying bag is not waterproof. The carrying bag should be washed on cold, without any detergent, and air dry.
