

<b>Door Thickness</b>	1 3/8" – 2 1/2"
<b>Spindle Type</b>	2 part 3/8" spring loaded spindle
<b>Body Material</b>	Zinc Alloy
<b>Non Handed</b>	Lock will fit doors hung on the left or right
<b>Mortice Latch (510 &amp; 515)</b>	Medium duty, stainless steel latch bolt head with "anti-shim" plunger, 8mm follower. 2 3/8" (60mm) backset, requires 1" hole, 3 1/4" deep. Option as above with 2 3/4" (70mm) backset requiring 3 5/8" hole.
<b>Cylinders</b>	Double Euro Profile cylinders with 3 keys. May be ordered Keyed Alike.
<p>Neoprene seals or metal cover plates are included on both sides to provide friction against the face of the door and to prevent damage from over tightening of the fixing bolts or to cover up an existing 2 1/8" lock hole in the door.</p> <p>The outside lever handle has a slipping clutch to prevent damage to the lock if the handle is forced.</p> <p>Suitable for internal and external use.</p>
