

## CARING FOR YOUR H2OFF® PROTECTED SHOWER GLASS

As needed, clean H2OFF® protected shower glass with a soft cloth or sponge. It is recommended to use a shower squeegee daily to clean glass doors after showering to help prevent water spots.

### GENERAL MAINTENANCE

H2OFF® not only protects shower glass from harmful contaminants that can otherwise damage or permanently etch the glass surface, it also makes cleaning your shower glass much easier.

Never use harsh, highly acidic / alkaline cleaners, sharp instruments or abrasive scouring powders or pads to clean your H2OFF® protected shower glass. Cleaners containing hydrofluoric and phosphoric acid should also not be used.

The following is a list of

### APPROVED COMMON HOUSEHOLD CLEANERS

that are safe to use with H2OFF®:

- Arm and Hammer Clean Shower Daily Fresh Clean Scent
- Clorox Green Works Natural Bathroom Cleaner
- CLR Fresh Scent Bath and Kitchen Daily Multi-Surface Cleaner
- Lime-A-Way
- Lysol Bathroom Cleaner 4 in 1
- Scrubbing Bubbles Natures Source Bathroom Cleaner

For optimum results, ClearShield AfterCare for Shower Glass provides long life protection, and is safe to use on all shower framework and hardware.
