FEATURES:

This little table is branching out to serve as the perfect perch for drinks or appetizers outside or indoors. The Hidcote Accent Table is made from the traditional technique of faux bois perfected by the French, which involves hand-applying concrete over a metal frame. Though you will think this table has sprouted and grown right out of the ground, it is sturdier than its plant namesake. The table has been treated to a warm Portland finish. There are a number of pieces in the Hidcote collection.
