

Hanging Light over a Table

When placing a chandelier or pendant over a table, try to maintain 36 inches between the top of the table and the bottom of your light. The fixture should not be less than half the width of the table and the table should be at least 6 inches wider on all side than the fixture above it.

Hanging Fixtures in Room

When hanging a chandelier or pendant in any room including entrances, hallways, and living spaces, the minimum distance from the floor should be 7 feet. The height of the fixture should clear any swinging doors. For rooms with higher than average ceilings, multi-tier fixtures are suggested
