Electric Baseboard

Enjoy the simple warmth of reliable, quiet convection heat. These high-quality baseboards are designed for easy installation and exceptional durability, providing reliable performance to warm any space for years to come.

Features

- Ideal for replacement and retrofit applications
- Easy installation with pre-punched knockouts at 1-inch intervals
- Universal wiring available at either end
- Proven construction helps maximize surface area and funnel heated air
- Place under a window for best results
- Includes high-temperature safety shutoff feature
- Powder coated for a smooth, durable finish
- Electric baseboard heaters are UL listed, factory rated at 208 volts or dual rated for 240/208 volts
- Element is steel sheathed calrod with channel shaped aluminum fins
- A full length capillary sensor tube is an integral part of each unit
- Case, cover, and deflector are made of 24 gauge steel with 20 gauge junction boxes containing a grounding screw
- All metal pieces are finished with a powder coat paint system

Specifications

Voltage	- 208, 240/208V
Wattage	- 300, 500, 750, 1,000, 1,250, 1,500, 2,000 and 2500W
Color	- White
Finish	- Polyester/epoxy powder coating resists fading and abrasion
Construction	- Case, cover, and deflector are made of 24 gauge steel with 20 gauge junction boxes containing a grounding screw
Heating Element	- Element is steel sheathed calrod with channel shaped aluminum fins - A full length capillary sensor tube is an integral part of each unit
Watt Density	- Average watt density of 250W/ft (820W/m)
Control	- Built-in thermostat available with a control knob
Installation	- Easily removed front caps, knock-outs on both sides of the unit, pre-stamped mounting holes and separate front panel make installation quick and easy
Warranty	- 10-year element warranty - 1-year warranty on complete unit

Applications

All Residential Applications | Commercial Offices | Lobbies

All models require hard-wire installation (no cord or plug).
