

OUTDOOR INFRARED WALL-MOUNTED NATURAL GAS HEATER

Sleek and powerful, our Outdoor Infrared Heaters can enhance any patio space instantly to give you heat on demand. The stylish black DGR model is a luxury upgrade in outdoor spaces with a natural gas line installation and permanent wall mount. Made of durable stainless steel and equipped with a high-performance ceramic burner that can heat up to 31,500 BTUs per hour. Extend your living space into your backyard all year round.

BENEFITS

- Flexible space-saving installation options: wall-mount bracket allows for multiple mounting angles, optional ceiling-mount pole sold separately, or an all-in-one package is available with the portable propane stand
- Innovative design provides an easy setup with some assembly required; natural gas line required for wall or ceiling mount
- High-performance ceramic burner - 31,500 BTU
- World-class wind protection up to 9.9 Mph/16 Kph
- Optional heat shield (not included) available for low clearance mounting, providing 12" (30.5 cm) overhead clearance
- Suitable for residential and commercial applications

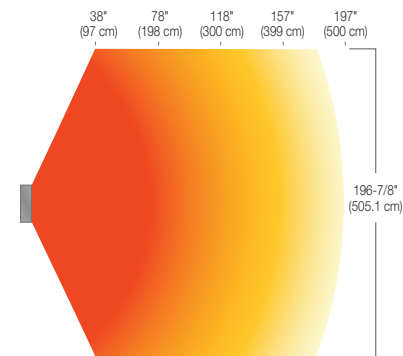

APPLICATIONS

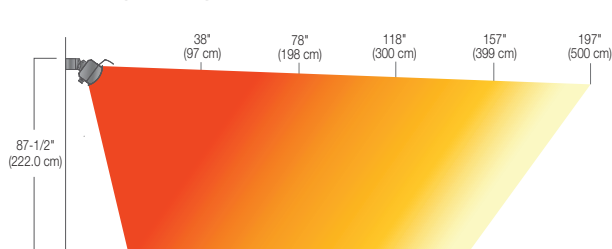

Patios | Balconies | Outdoor Living Spaces | Sunrooms | Gazebos | Common Areas
