

TWH Fan-Forced Wall Insert Heater

NEW

- Heats any room quickly and quietly, making it ideal for bathrooms, kitchens, hallways & entranceways.
- Compact design provides high heat output where space is limited.
- Restyled grille provides a clean look that complements any interior.

Superior Heating Element Design

Rugged, fully enclosed tubular element with brazed steel fins delivers long life and safety.

Flexible Installation and Operation

Low-profile mounting box can be installed horizontally or vertically in walls as shallow as 3¼". An optional register-style grille is also available. Operates with optional built-in or wall-mount thermostat.

Extremely Quiet Operation

The redesigned TWH fan offers improved airflow resulting in low front panel temperatures while reducing noise. The factory lubricated motor is completely maintenance-free.

Safety

Tubular fin elements operate at lower temperatures than traditional open coil units. In the event of airflow blockage, the high limit cutout shuts off the unit, activates an indicating pilot light, and automatically resets once safe operating temperature is restored.

Construction

Powder-painted, 22 gauge steel front panel resists fading and scratching and is available in white or almond finish to suit any décor. All internal sheet metal components are satin coat finish to prevent rusting.

Warranty

10 years on Heating Element, 2 years on complete unit.

TWH Fan-Forced Wall Insert Heater

Technical Specifications

Voltage	120, 208/240 volts - single phase
Wattage	Sizes ranging from 500 to 2000W
Color	White or Almond
Air flow	45 CFM - fan blades engineered for quiet operation
Finish	Specially formulated polyester powder paint process is applied to the front panel which resists fading and abrasion.
Construction	The front panel is constructed of 22 gauge steel and the housing is complete with knockouts for field wiring.
Heating	A nickel chromium element is totally enclosed within a steel element sheath and spiral steel fins are firmly brazed to the surface to provide excellent heat transfer.
Controls	A thermostat control (either wall or built in) is required to operate this unit. Optional built-in thermostat is positioned below the element for superior temperature control. The unit has a large wiring compartment which makes power connections quick and easy.
Warranty	Two year warranty, (10 year element), UL and CSA approved.

Dimensions

Control Options *Field Installed*

Cat. No.	Description	Rating
TWHT1	Single pole thermostat kit	22A, 120/240 volt
TWHT2	Double pole thermostat kit	17A, 120/240 volt

Note: Above thermostats are not suitable for TWHR Register Style Grilles

Accessories *Field Installed*

Cat. No.	Description	Dimensions
TWHSBA	Surface Mount Box (almond)	9 7/8" w x 17 1/8" h x 3 3/8" d
TWHSBW	Surface Mount Box (white)	9 7/8" w x 17 1/8" h x 3 3/8" d
TWHA	Multi-Directional Front Grille (almond)*	9" w x 17" h x 1 1/8" d
TWHW	Multi-Directional Front Grille (white)*	9" w x 17" h x 1 1/8" d
TWHRA	Register Style Grille (almond)	17" w x 9" h x 15/16" d
TWHRW	Register Style Grille (white)	17" w x 9" h x 15/16" d
TWHC	Separate Wall Can*	14 1/4" w x 8" h x 3 1/4" d

*Required for Bulk Style Units
