

ALLURE SHOWER DOOR

The full range of DreamLine™ Allure shower doors offers shower door solutions for openings from 30"-67". Each of the Allure doors is made of thick 3/8" tempered clear glass. The unique designed aluminum wall profiles and adjustable pivot hardware allows each door to be adjusted by up to 7", accommodating a variety of openings and small variations in side walls. Doors from 30"-43" are comprised of a small side stationary glass and main door. Doors from 43"-55" are comprised of a small side stationary glass, main door and a 12" stationary side panel with two integrated glass shelves. Larger doors from 54"-67" are also combined from a small side stationary glass, main door and a 24" stationary side panel with two integrated glass shelves. All Allure doors are reversible for right or left installation. Optional Acrylic/ABS shower back wall kits and single threshold DreamLine™ Acrylic/ABS shower trays are also available in a variety of sizes to complete your project.
