The Eccotemp FVI-12 Tankless Water Heater is an indoor tankless water heater designed for small to medium hot water production where you need more than one hot water application at the same time. Perfect for vacation cabins, cottages, condominiums and smaller homes.

The Eccotemp FVI-12 Tankless Water Heater comes with a horizontal stainless steel vent kit, ready to install. It only pulls about 2 watts idle and 10 watts during operation, making it ideal when energy conservation is paramount.

Package Contents

- ✓ 74,000 BTU tankless water heater
- ✓ 90° Elbow
- ✓ Wall thimble
- ✓ 18" straight pipe/termination cap
- ✓ Instruction Manual
- ✓ Installation hardware
