

PWL5003Y

LED Portable Work Light

Elitco Lighting LED portable work light provides an energy efficient alternative to traditional high-wattage halogen work lights. Operating at very low wattage, while outputting plenty of light, the work light housing stays cool to the touch. With LED as the light source, the housing profile reduces down to a slim and compact shape making this work light easy for storage and setting up in tight spots. With a durable die-cast aluminum construction this heavy-duty work light is designed for many years of reliable operation.

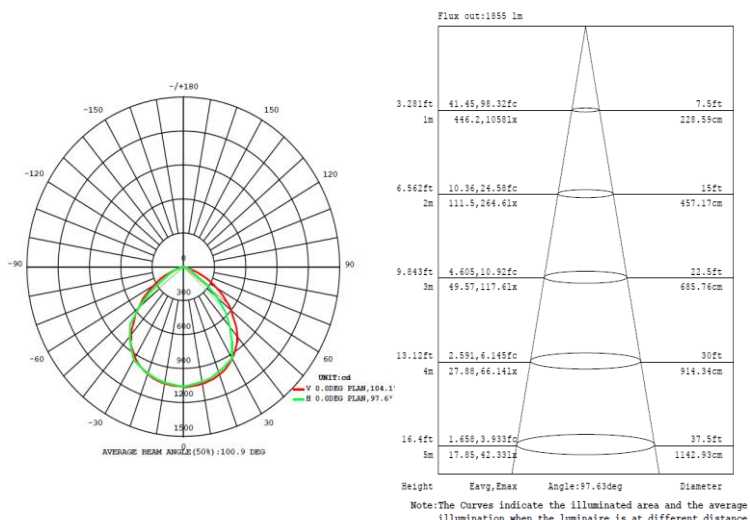

Performance

- No UV or IR radiation.
- Mercury-free construction.
- Suitable for damp location use.
- Dual voltage model provides a portable profile with convenient 12V dc alternate input.
