

LIVING DISTRICT

Collection: Dux

Installation manual for:

LDOD3004-6PK D3.7"H13.8"L3.7"

INSTALLATION INSTRUCTIONS:

1. Slide the switch to the "ON" position.
2. Insert the housing (P4) into the top cover (P1) and twist to lock.
3. Firmly slide the post (P5) into the housing (P4).
4. Attach the post (P5) to the stake (P6).
5. Insert the stake (P6) firmly into the ground.
6. DO NOT use a hammer. For ground with hard soil, to prevent breaking the stake (P6), use trowel to loosen the soil first.

CHARGING THE BATTERY:

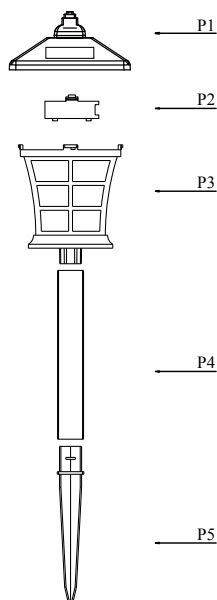

For optimum performance, it is best to install the solar light in full sunlight and charge for 10-12 hours before first use. Allow the light to run at least 8-12 entire charging and discharging cycles to reach battery's maximum capacity.

REPLACING BATTERY:

For best performance, replace with rechargeable 1.2V AA battery when performance diminishes.

1. Twist and remove the housing (P4) from the top cover (P1).
2. Remove the battery cover (P3).
3. Replace the old battery (P2) with a fresh 1.2V AA rechargeable battery.
4. Put back the battery cover (P3) and the housing (P4).

The end!

PART LIST

Part	Description	Qty
P1	Top Cover	6
P2	Battery Cover	6
P3	Housing	6
P4	Post	6
P5	Stake	6
