

**PRODUCT DESCRIPTION**

A bold reimagining of the classic picture light, Braque pairs a faceted polygonal profile with refined technical performance. Supported at both ends, its geometric body is precision-machined and finished with matching endcaps for a tailored aesthetic. The integrated LED rotates to direct light with precision, while a dual-mounting backplate--paired with an optional 5" square cover plate--provides added versatility. Whether illuminating art, mirrors, or shelving, Braque balances architectural strength with sculptural restraint.
