Integrated

Fisher & Paykel fridge freezers are designed to seamlessly integrate into your kitchen. This model can be fitted for a height of 80 or 84 inches and fits flush. It can be purchased with a stainless steel panel.

Dimensions

Depth	23 3/4"
Height	79 27/32"
Width	35 21/32"

Features & Benefits

Easy installation

Our integrated products are easy to install, whether you are renovating your kitchen or designing a new one. Our fridges are designed for minimal gaps with adjustable front and rear feet to allow for uneven floors alongside adjustable door panels that can be customized to match your kitchen.

Design quality

Our fridges are designed and built using quality materials. We use real stainless steel on our fridges and solid glass for shelving.

Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Simple storage

This fridge is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

Humidity control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.
