FEATURES & BENEFITS

VARIABLE TEMPERATURE ZONES

Create the perfect climate by storing food at their optimal temperature. Change a compartment to Fridge, Pantry or Chill.

INTERNAL WATER DISPENSER

This integrated model features a slimline water dispenser, located on the inside for an uninterrupted exterior. The flush-fit design of the water dispenser maximizes internal storage space, allowing the shelves to be adjusted to suit your needs. Enjoy a

continuous flow of temperature-controlled chilled water to fill almost any size or shape of vessel.

APPEALING ILLUMINATION

Bright LEDs light up the ceiling, shelves, bins and trays in both refrigerator and freezer, creating a welcoming glow in your kitchen at night and using less power than comparable halogen lights.

MIX & MATCH

Integrated Column Refrigeration gives you the freedom to mix and match refrigerators and freezers based on your needs – or install separately. They can be customized with your kitchen cabinetry for a seamless look, or finished with one of our stainless steel door panels.

CLEVER ENERGY

ActiveSmart™ makes your refrigerator more energy efficient – adapting to daily use and cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

DESIGN QUALITY

The premium design and quality finish includes a white or stainless steel interior lining, as well as full-extension metal shelf runners for easy access and robust glass shelving.

PERFECT FIT

Create an understated and clean look in any kitchen. You can hide our Integrated Column models seamlessly behind your cabinetry, fitting flush with only a 1/8" gap and no visible hinges or grilles.
