

# Mobile Link™

## Service Levels

## More Choices. Multiple Service levels. Choose the right solution for your needs

Mobile Link remote monitoring lets you get and share information about your home standby generator no matter where you are, using your computer, smart phone, or mobile device. View your generator's status and maintenance needs. Set its exercise schedule. Review its running and maintenance history. And get notified of status changes.

## Your Generator's Information, at Hand and in One Place

### DISPLAY

The color-coded background gives you at-a-glance information about your generator.

**Green:** Your generator is ready for action.

**Blue:** Your generator is currently running.

**Yellow:** Your generator needs maintenance, but is otherwise ready to run.

**Red:** Your generator has a problem, and needs immediate service, or is set to off.

### SUPPORT FOR MULTIPLE GENERATORS

If you have multiple generators, you only have to scroll left and right to select them.

### LINK STATUS

If for some reason your generator isn't connected network, an icon will appear to let you know.

### ALERTS

When your generator has a problem, you can click on alert icon to find out the details.

### GAUGES

This instrument cluster shows total generator running time, voltage status and fuel level in diesel-fueled generators.

### GENERATOR DETAILS

Click here for generator details, like serial number and description, maintenance and status history. If you select a preferred servicing dealer, their info will be available, and you can click to call them.

Receive 1 monthly email that reports on your generator status changes, faults and warnings.

**\$0.00**

Mobile Link allows you to monitor the status of your generator on a phone, tablet or computer from anywhere in the world. Giving you the ability to connect your account to your authorized service dealer for fast, friendly and convenient assistance.

\*Dealer defines maintenance contract options.

\*\*Available as an accessory Cellular Mobile Link coming in August with an additional fee.

Receive active notifications (email, text, push) on your generator status.

**\$49.99**  
ANNUAL FEE

Generac's Mobile Link provides your dealer with all of the information about your generator's performance.

## Superior Service

You can always be connected to view the status of your generator and notify your authorized Generac dealer to service and support your generator.

## Keeping your Connected Home running

The world is connected today, Mobile Link gives customer the peace of mind their connected home will stay running, even if the power goes out.

**On your way to the airport,** you see your generator needs maintenance. You click to call your preferred servicing dealer to make an appointment while you're away.

**From your hotel,** you get notifications that your generator is exercising as it should.

**At dinner with friends** you see that there's a problem with your generator. You click to call your dealer to have it fixed before the next power outage.

**During that long business meeting,** Mobile Link tells you that your generator is ready to protect your family at home if the power goes out.

**Your parents are impressed** with how easy it is to monitor your generator. They'd like one just like yours. You use Mobile Link to give them the model number, and put them in touch with your dealer.

**You're glad to be on the beach,** because you hear there's a big storm back home. One glance at Mobile Link tells you that your generator is running—protecting your home—because the power went out.

**Compatibility.** Mobile Link is compatible with Generac's Guardian Series 9 to 22kW Home Standby Generators manufactured during 2018 and after.
