GENERATION LIGHTING

## Outdoor

### GENERAL PRODUCT INFORMATION:

This product is safety listed for wet locations.

Incandescent lamps may be dimmed with a standard incandescent dimmer. LED lamps may be dimmed with a LED dimmer. Consult lamp manufacturer for additional information.

This instruction shows a typical installation.

**CAUTION - RISK OF FIRE**  
 This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.  
 Use minimum 90°C supply conductors.

- 1** Connect the fixture to a suitable ground in accordance to local electrical codes.
- 2** Connect the white fixture wire to the neutral power line wire with a wire nut.
- 3** Connect the black fixture wire to the hot power line wire with a wire nut.
- 4** Secure the fixture to the post with the post screws making sure to neatly tuck in all wiring.
- 5** Insert the glass panels through the bottom of the shade, then secure them in place using the clips.
- 6** Place the shade onto the fixture and secure them together using the shade screws.
- 7** Install the door glass by sliding it into the door.
- 8** Screw the lamps into the sockets. Refer to the label on the socket for max wattage information.
