

GLADIATOR®

PRODUCT GUIDE

New Zealand Edition

THE GLADIATOR® BRAND ADVANTAGE

Whether you use your garage for parking the cars, working on projects or entertaining, Gladiator® brand helps you make it what you want it to be.

Ultimate Versatility

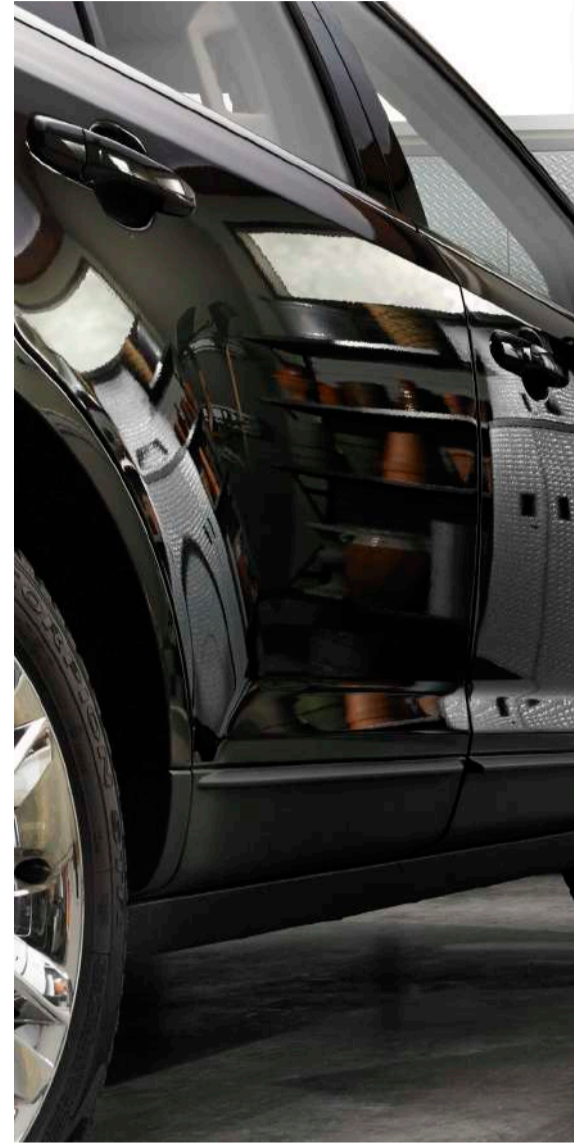

Our versatile products help create the most complete organisation system. They work together so you can get the most out of your garage: floor to ceiling, wall to wall.

Heavy-Duty Steel Construction

Gladiator® cabinets and modular storage products feature heavy steel construction that ensures outstanding performance in any environment.

Hassle-Free Warranty

We're so confident in the Gladiator® brand that we offer warranties just as strong as our gear. Most of our products are backed by at least a 10-year limited warranty*.

TRANSFORM

YOUR GARAGE IN THREE EASY STEPS

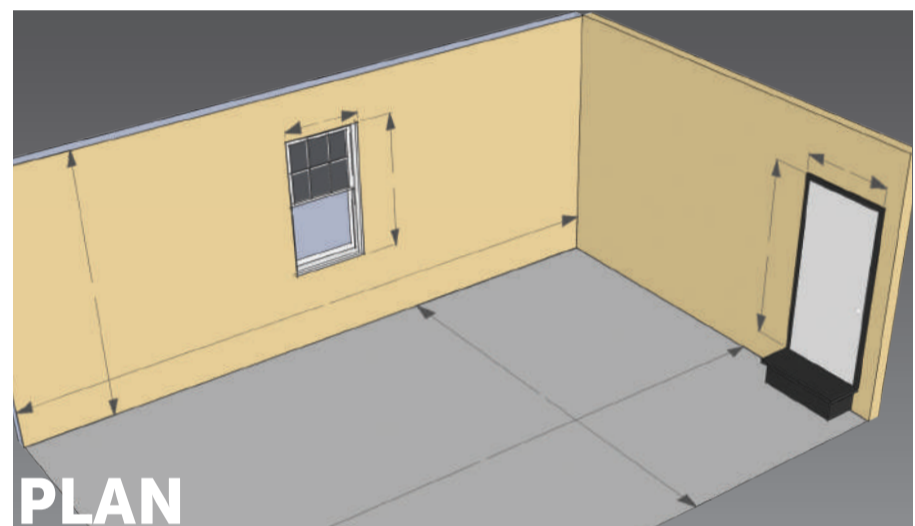

The only way to really know what lurks in your garage is to remove all the items inside. Yes, everything. This forces you to make a storage decision on every item. **Keep** items you'll move back into the garage.

Donate or Sell items that can be given to friends, online donation sites or community charities, or sold at a garage sale or online.

Toss or Recycle items you simply don't use or that are damaged beyond repair.

Measure your space It's important to get your exact dimensions including:

- Front, back and side walls
- Size and location of windows and doors, including doorstep
- Location of studs, stairs, outlets and switches
- Floorspace and space occupied by your car(s)

Create a wall organisation system Using your walls for storage is a smart way to get gear up off the floor and maximise space to transform your garage into an area you can actually use.

Protect your garage floor A covered garage floor is easier to install than you might think and adds style and protection, too.

Choose the right cabinets Storage cabinets are an excellent choice when you want to clear items from the floor and keep them safely hidden behind closed doors.

Ready-to-Assemble Cabinets

Designed with heavy duty steel and available in a variety of sizes and configurations, our easy-to-assemble cabinets offer versatile features to help keep the tools and supplies in your garage protected and organised.
