LIMITED WARRANTY: This bulb is warranted to last 5 years from the date of purchase based on use of 3 hours per day. If it fails before that time, we will replace it. Send Globe Electric the bulb, proof of purchase and register receipt along with your complete name and address. See caution text for proper use. This warranty is void if this product is misused in any way. This replacement is the sole remedy available and liability for incidental or consequential damage is expressly excluded.

CAUTION: For use only in 120V/60HZ circuits. Risk of electrical shock. Do not open, no user-serviceable parts inside. This device is not intended for use with emergency exit fixtures or emergency exit lights, photocells and electronic timers. This device is intended for indoor use or weather protected fixtures. Do not use where directly exposed to water. Minimum operating temperature is -20°C (-4°F). Lamp may not be compatible with all dimmers – for more information on dimmer compatibility visit www.globe-electric.com. This device shall not be used in a totally enclosed/recessed/sealed fixture.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment. This Class B digital apparatus complies with CAN ICES-005(B).

WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
