Powering Business Worldwide

Simple. Smart. Secure.

Today, homeowners expect lighting that fits their lifestyle. The HALO Home system lets you easily build a lighting plan that meets your needs, enhances convenience and aesthetics, saves energy and adds security.

No internet or hub required to operate.

Smart lighting – new standard.

HALO Home is a flexible new approach to smart home lighting. Our system offers a range of fixtures, controls and accessories that work seamlessly together. Easily configure your lighting via Bluetooth® connection using any smart device. From a single light to an entire home, your smart lighting search starts and ends here.

HALO Home app

Our user-friendly mobile app lets you control lighting from your fingertips, and from anywhere in the world (with the optional Internet Access Bridge). Available for iOS and Android, it features dimming, adjustable white tuning, grouping, automatic scheduling and more.

Voice control compatible

Customized home lighting, on command. HALO Home is compatible with Amazon Alexa and Google Assistant products, when using the optional Internet Access Bridge.

Flexible and scalable

HALO Home is a simple and flexible connected option, with the ability to install as little as one smart light or scale up to control the entire home through the easy-to-use HALO Home app.

Adjustable white tuning

Select the perfect color for your mood and beautifully complement your home. The HALO Home smart lighting fixtures provide the ability to adjust color temperatures from 2700K (warm white) to 5000K (daylight).
