

Model 15213 Sump Pump Kit

GENERAL

For use on SCWT and S series floor model units only where natural drainage is not available. Waste water from cooler drains into reservoir and is automatically pumped out to an overhead drain or other method of drainage. Silent 1/6 hp motor delivers 28 gph (maximum) at 40 ft. height through a 1/2" O.D. copper waste tube (not supplied). Unit is furnished with knockout for conduit (hardwire) connection to 115 volt, 60 Hz single phase electrical supply. Overall dimensions: 9-1/4" H x 6" W x 12" L.

Shipping Weight: 16 lbs.

KIT CONSISTS OF:

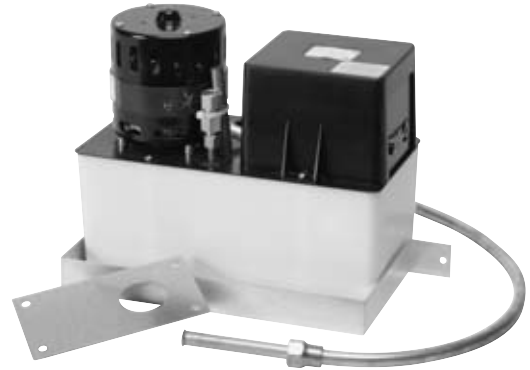

- Sump Pump
- Mounting strap
- Trap mounting plate
- Copper tubing
- Connection fittings
- Assorted screws, nuts & washers
- Installation and operating instructions

Note: Power cord and plug are not included. Sump Pump is hardwired. Water cooler must be level to avoid excess vibration.

Use part #73-15213-51-550 when ordering.

NOTE: Continued product improvement makes specifications subject to change without notice. See Halsey Taylor website for most current spec sheet.
