- Mechanically-Activated bubbler continues to supply water in event of service disruptions.
- Vandal-resistant, bubblers are one-piece, chrome plated with integral hood guard design to prevent contamination from other users, airborne deposits and tampering.
- Freeze Resistant:
  - Depending on specific installation, freeze resistant system is located either below frost line or in temperature controlled space.

This specification describes a Halsey Taylor product with design, quality, and functional benefits to the user. When making a comparison of other producers' offerings, be certain these features are not overlooked.*

#### MOUNTING INSTRUCTIONS

Refer to diagrams for rough-in of freeze-resistant system and plumbing. For wall support required locations see installation instructions provided with fountain. Bolt fountain securely to wall per installation instructions. Water supply and waste line are to be assembled as required. Final check for leaks and correct functions of fountain should be made. See installation instructions for full details.

**Freeze resistant box must be installed on interior non-freezing wall.**

**CAUTION – Fountain must be securely bolted to wall.**

#### OPERATING PRESSURES:

Supply water - 105 psi maximum

**NOTE:** A service supply stop (not included) must be installed at the fountain inlet line.

IMPORTANT: For recommended wall support see installation instructions provided with fountain.
