

MM14CCSBB

COOLING CAPACITY

ASHRAE BTU 14,000 BTU
DOE BTU¹ 7,500 BTU

- 3-in-1 Function: Cooling, Fan and Dehumidification
- Cools areas up to 700 sq.ft*
- Built-in Dehumidifier removes up to 86 pints/ 24 hours*
- Auto-Evaporation System: No bucket to drain[#]
- 3 speeds with 24 hour energy-saving programmable timer
- Easy installation kit included – no professional help needed
- Environmentally friendly R410A refrigerant
- Powerful air flow and quiet operation (54 dbA)*

Digital Control Panel & Remote Control

Easy Access Washable Air Filter
Helps catch unwanted dust particles from the air extending long term efficiency and inner component cleanliness

Quick & Easy Installation
Easy-to-install window venting kit includes adjustable window bracket & all materials needed to set up and use the air conditioner quickly

| Product Dimensions (in) | 19.9 (W) 15.8 (D) 34 (H) |
| Net Weight | 73.9 lbs / 33.5 kg |

FEATURES & BENEFITS

3-in-1

Cooling, Dehumidification, Fan

Dehumidification Capacity
86 pints/24 hours
(40.7 litres/24 hours)*

Powerful Air Flow
265 CFM (450 m³/hr)*

Adjustable Temperature
61°F to 89°F (16°C to 32°C)

Feather Touch Controls

* All specifications mentioned are under test conditions, actual performance depends on ambient conditions. Specifications may vary in different countries and subject to change without prior notice.
[#] Except in very high humidity conditions.
¹ In October 2017, the Department of Energy implemented a new test procedure which takes different factors into account and generates a lower BTU rating of portable air conditioners to indicate capacity. However, the actual capacity has not changed - the difference is simply due to the different test procedure. There have been no internal changes to these units, and the functionality remains the same. Please refer to room size guidelines to find the portable air conditioner that best meets your needs. Please also refer to the Aham website.
