SOLANA

dining room • bedroom • living room tables
home entertainment • home office

Luminous and fresh, Solana is a refined rustic, opulent yet casual collection that celebrates the look of natural wood bathed in sunshine. Artfully done inlays, scrolled marquetry, exuberant shapes and an understated scale create a livable resort feeling suitable for homes from countryside villa to suburban dwelling.

While Solana takes traditions to heart, the overall feel is an unpretentious casual elegance, with a light and airy touch. The soft, wire-brushed finish is a light caramel latte color with subtle lacy white hang up and a gray undertone. Selected pieces have a shimmery metallic accent finish in a lovely champagne color. Mixed media gives a sophisticated casual feel, with mirrored backs on a signature panel bed, bookcase, console and cocktail table, and a stone base on a round dining table, along with a stone-top nightstand. Recalling the old world masters' use of marquetry, Solana is an interpretation of inlays done from a 19th Century perspective---respecting the pedigree of the past yet updated for today. While grand in feeling, Solana has modest and accessible scale, making it a versatile collection suitable for homes and rooms of all sizes.

Quality from start to finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.
