

# Hill Country

---

A casual American collection that takes a deep dive into the artistry, antiques, culture, natural terrain and landmarks of the hill country of Texas, the refined estates of Napa Valley, and the natural beauty of the bluegrass regions of Kentucky.

**HOOKER<sup>®</sup>**  
— FURNITURE —

Inspired by the most beautiful examples of American countryside, Hooker Furniture's Hill Country Collection imparts an authentic American character."

The Texas Hill Country is like nowhere else on earth. Known for its exceptional natural landscape that includes rolling hills, flowing rivers, natural formed caverns, and grand visual expanses, the area also features an inspiring mix of Spanish and German influences that are obvious in the food, architecture and music of the area. Collectively, these and other unique characteristics of the Texas Hill Country create a distinctive Texas culture that is quite different from the state's more Southwestern influences.

Noted author Irvin Cobb once said; "To be born in Kentucky is a heritage, to brag about it is a habit, to appreciate it is a virtue.". We couldn't agree more. With softly rolling hills, pastures of endless Kentucky bluegrass, elaborate stables and beautifully painted white fences that continue for miles, the Horse Country of Kentucky inspires a life of comfort, soft breezes, casual afternoons and, at least once a year, the perfect mint julip.

While we often think of wine country as being synonymous with Napa Valley, the area includes so much more. In addition to Napa county, the area includes Mendocino, Lake and Sonoma counties as well. During the Spanish colonial times, the beauty of the area's rivers, lakes, exceptional climate and even the beauty of the redwoods attracted European settlers who began importing vines, cultivating grapes and making some of the very best wine in the world. The combination of Spanish and European influences in this beautiful area combined to create the unique architecture found here as well as the inspired culture that we now know as Wine Country.

# Elements

**Hill Country** is a collection of bedroom, dining, home office and accent furniture crafted of flat-cut rustic white oak veneer that is cracked before the finish is applied to appear seasoned over time. Selected pieces are crafted in a carved "Gambel Oak" motif inspired by the scrub oaks that are so prominent in the American West.

One of the most striking pieces is the French-inspired tall Lakehills Wardrobe.

This wardrobe/armoire is designed with strap hinges in a two-tone finish that features a full-length mirror, wire management for a TV, three drawers with four adjustable dividers and two shelves on the inside, along with removable shirt dividers and a hanging rod.

The main finish is a timeworn saddle brown that is paired with an anthracite black with light dusty-wax hang up to create a two-tone finish that is as authentic as the countryside from which it emanated. The accent finish was inspired by native Sandstone with characteristic aged black highlights that has been quarried in the Texas Hill Country for centuries.

The custom-crafted hardware in an aged pewter finish has shaped back plates and is inspired by hand-wrought ironworks from Texas Hill Country.

# Quality

## Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

## Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

## Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

*During the days when rail was the most common mode of long distance travel, the steamer trunk made its most recent debut. Often made of pine and then covered with other protective or decorative materials, these trunks were the luggage of the day. To carry spirits (a near necessity in those days), craftsmen of the time created smaller, personal bars using the same design aesthetics. Today, our steamer trunk bar pays homage to those early craftsmen and creates the perfect small space for your favorite libations.*

Our New Braunfels Bar features a bottle opener on the inside, wine glass storage along the top that can hold up to eight glasses. Four deep drawers for storage, one with solid maple cutting board that sits on floating supports and has a cutout handle for easy removal and drip lines. The right side bottom drawer has lock that is located on the inside of the door, three reversible pullout wine shelves that can be reversed to a flat wood shelves, each wine shelf holds four bottles. Below the floating tops sits a marble work surface complete with a three plug electrical outlet and one USB charger. The electrical outlet has a 10' cord that can run down the inside of the right door and out the bottom of the case.
