Product Finishes

Our Classic and Slim-line™ picture lights are offered in the most popular finishes. If you would like a finish that is not stocked, call our customer service department for lead time and cost.

The antique and weathered brass finishes are applied then rubbed by hand to achieve the proper effect. For this reason there are slight surface variations which are expected and desirable.

The stocked finishes are listed on the product page. Refer to this page for a color representation of finish.

Custom Direct Mount Lighting

Customizing House of Troy Picture Lights.

We are often asked for custom versions of existing products, especially picture lights. Picture Lights are easily adapted to lighting book cases and display areas. We have developed hardware to mount through any hard surface. These products are designed as cord and plug items and will require a receptacle to plug them into behind the soffit. Call our Customer Service department at 800-428-5367 for assistance in designing your direct mount product.

CD-T24-81
