

■ Direction of the relief patterns

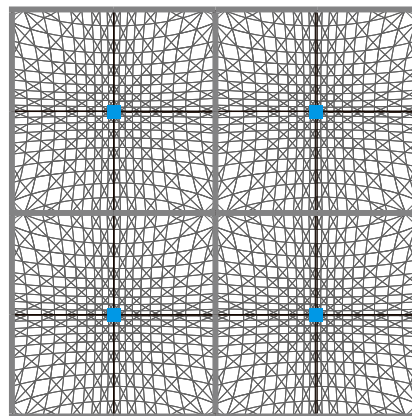

There's a certain direction. Make sure there is a flat surface in one of the four corners of the tile.
The flat surface is located in the bottom right, when the color number on the back of the tile is shown on the bottom.

■ Figure ① Basic Pattern (A set of 4 Pieces)

■ Figure ② Example of installation

The standard installation is done in a set of 4 pieces. (Figure ①)
Install the tiles where the corner with flat surface comes in center, rotating 90° each time.
Repeat the standard installation as indicated in Figure ② to complete the installation.
