

30" ADDISON VANITY

JAMES MARTIN
VANITIES

E444-V30-MCA

Features and Materials

Solids: Para Wood and Yellow Poplar

Veneers: Mango

Panels: MDF

Installation Type: Floor Standing

Number of Basins: One, with Optional 3cm Top

Vanity Top Included: NO, Optional 3cm Tops Available with Sinks

Overflow: Yes, Front Facing

Number of Doors: One

Number of Drawers: Three

Number of Tip Outs: One

USB/Power Component: YES (ETL5011080)

Cord Length: 6'6"

Assembly Type: Yes, with Optional 3cm Top

Bamboo Storage Tray: YES

Door Panel: Reversible. One Side Finished in Mid-Century Acacia, One Side Natural Cork (Pattern: Herringbone)

Drawer Box Material and Construction: 15mm Poplar/English Dovetail Joinery

Hardware Material and Finish: Zinc Alloy in Burnished Nickel

Fits Drain Hole Size: 1 3/4"

Full Extension, Soft Close Glides

European Soft Close Hinges

Aluminum Laminate Drawer Liners

Adjustable Levelers

Dimension

Width: 29-7/8"

Depth: 23-3/8"

Height: 34-1/2"

Rough-In Height: 21-1/2"

JAMES MARTIN
[VANITIES]

ĖCLOS is the next generation of high-performance mineral surfaces, featuring a layered full-body integrated design and superior heat resistance. Thanks to its INLAYR technology, the production of ĖCLOS products combines minerals and recycled materials with a low-crystalline silica composition, through an advanced process of robotic engineering and integrated decorative techniques, resulting in the first collection with zero crystalline silica in its composition.

Ēclos Care and Maintenance

ĒCLOS materials have been designed to offer exceptional performance and aesthetics, making them the ideal choice for bathroom countertops. However, as with any high-end material, they are not completely unalterable. To ensure its useful life and preserve its beauty, it is important to follow some basic recommendations for use and maintenance.

Daily Maintenance: To maintain the appearance and performance of the material, it is recommended to clean stains and residue as soon as possible with a soft cloth, neutral soap and water. Avoid water puddling on the surface.

Cleaning: Avoid using cleaning products, aggressive solvents, strong acids, abrasive scouring pads, as they can damage the finish and properties of the material.

Applying hot tap water, along with a soft cloth and a neutral detergent, helps dissolve greasy and stuck-on residue, making it easier to remove without damaging the surface.

For stubborn stains, follow these guidelines:

Water and Lime Stains

Neutral anti-scale products applied with wet sponge

Other Stains

Oxygenated cleaners with a maximum hydrogen peroxide concentration of 5.5% applied with a wet sponge.

Impact Resistance Defined

Although Ēclos is durable, careful use will extend its lifespan. Handle heavy and sharp objects with care near the surface, avoiding sudden impact.

Heat Precautions

Although Ēclos is designed to withstand high temperatures for short periods of time, it is not recommended that the product be exposed to sustained contact with a heat source, like curling irons. The use of a trivet is recommended in such situations.

UV Exposure

Avoid direct sunlight, as it can visually alter the material over time. To fully enjoy the original design and color of Ēclos, we recommend using LED or fluorescent lighting.
