

Piper

The Piper collection mixes modern with grace with its delicate glass bead accents. Making this a focal point in any room is the linear detail in the clear glass and metal rods finished in Espresso or Chrome.

“ This Piper Chandelier is very elegant and classy! It really lights up the room and is the vocal point of the room now. The box is large and everything is package extremely well. Each piece of crystal was wrapped in tissue paper and bubble wrap individually and the silver was in bubble wrap. Unwrapping everything took the longest. I added the crystal balls to the silver pieces, their are two different sizes of silver so the shorter size got the smaller crystal balls. Once that was done I grabbed the larger ones and started installing them on every fourth hole on my already hung chandelier. It was easy just time consuming however the finished product is superb and well worth the time. I installed this myself and it took an hour. This does not come with lightbulbs so make sure you purchase those before you install. I highly recommend this product! ”
