Installation Steps:

- Step 1. Locate where you would like to install the towel bar by measuring from end to end on the towel bar then measure the desired height on the wall where the towel bar will hang (fig 1).
- Step 2. Position the mounting template on the desire location, and use a level to make sure it is level.
- Step 3. Use a pencil to mark both bracket holes. Repeat this step for the other side.
- Step 4. Remove the template from wall and use a 1/4" drill bit to pre-drill holes in the drywall where pencil marks are drawn (fig 2).
- Step 5. Hammer in the drywall anchors until flush with the wall (fig 3).
- Step 6. Secure the mounting brackets (with the holes on a level) to the wall using the provided screws (fig 4).
- Step 7. Insert the unit with holes facing down to the bracket and tighten setscrews with an Allen wrench until the base is tight and secure (fig 5).

Cleaning
