**Plus:**

- Drop Cloth
- Shims
- Short 1-1/2" D. PVC Pipe or Coupling

Silicone Sealant

Silicone Adhesive

Level

## Before You Begin

**NOTICE:** Adequate floor support must be provided. Note the **model number** on the back of the bath, then visit the product page at [www.kohler.com](http://www.kohler.com) for additional information.

**NOTICE:** Do not support the load weight of the bath by the rim.

**IMPORTANT!** To ensure a successful installation, install the bath on a level finished floor.

- Observe all local plumbing and building codes.
- Unpack and inspect the bath for damage. Return the bath to the carton until installation.
- To simplify future maintenance, make sure all plumbing connections around the bath are easily accessible.
- Carefully plan moving the bath into the installation area. This bath will not easily fit through doorways.
- Install the bath to an adequately supported, level finished floor.
- This bath is designed for freestanding installation only.
- Provide adequate backer board support for a rim-mount faucet; large faucets that may be inadvertently used as a means of support are not appropriate or safe for this installation.
- If installing a rim-mount faucet, make sure there is no interference with the drain overflow before drilling any holes. Consult local and national codes for minimum air gap requirements if installing a spout on the rim.
- Illustrations shown may not look like your actual product but they still apply for this installation.
- This bath conforms to CSA B45.5/IAPMO Z124. All dimensions are nominal.

■ Recommended Faucet Area

## 1. Prepare the Rim-Mount Faucet (Optional)

**NOTICE:** To accommodate the bath apron, use flexible connections to attach the water supplies to a rim-mount faucet.

- Measure and cut a piece of 1/2" (13 mm) exterior grade plywood to support the faucet. The board should be 4" (102 mm) wide. The length should extend beyond the width of the faucet holes to ensure proper support.
- Position the faucet in the desired location along the bath. Ensure the faucet will not interfere with the drain and overflow.
- Use a pencil to mark the faucet centerlines for drilling. Do not drill at this time.

**CAUTION: Risk of product damage.** To avoid scratching the bath, position a thin piece of cardboard under any clamps before tightening.

- Place a thin piece of cardboard on the finished surface of the bath rim.
- Position the plywood on the underside of the rim, then clamp in place. Make sure the clamps do not directly contact the finished surface of the bath.
- Refer to the installation instructions packed with the faucet to determine faucet hole size.
- Carefully drill the faucet holes.

## 2. Prepare the Site

**NOTICE:** Measure your product for site preparation. Note the **model number** located on the back of the bath, then visit the product page at [www.kohler.com](http://www.kohler.com) for more information.

**IMPORTANT!** To ensure a successful installation, install the bath on a level finished floor.

- Make sure the subfloor offers adequate support for the bath.
- Temporarily position the bath and apron in the installation location.
- Verify the bath is level. If needed, prepare shims for placement under the bath blocks.
- Mark the drain location on the floor.
- Without moving the apron, lift and remove the bath from the apron.
- Using a pencil, trace the apron holes on the floor.
- Remove the apron and set aside.
- Position and install a standard PVC or brass bath drain pipe. Install the drain pipe so it extends 2-1/8" (54 mm) above the finished floor.

*Dry fit the drain assembly.*

*Apply sealant.*  
*Attach the drain to the P-trap.*

*Apply sealant to bottom before positioning.*

### 3. Prepare the Bath

- Dry fit the drain and overflow assembly to the bath. **Do not apply sealant at this time.**
- With help, position the bath only (without the apron) over the P-trap and secure the connection.
- Loosen the drain and overflow connections from the bath.
- Remove the bath, leaving the drain and overflow assembly attached to the P-trap.
- Apply slow-drying silicone adhesive to the bottom of the apron.
- Carefully position the apron over the drain, aligning the holes with the traced marks on the floor.
- Apply sealant to the gaskets on the drain and overflow assembly.

## 4. Install the Bath

- Apply a generous amount of silicone adhesive to the support blocks (with shims as needed) on the bottom of the bath.

**NOTE:** To provide access for securing the faucet connections, temporarily place block spacers between the apron and the bath rim.

- With help, carefully lift the bath into place over the apron and onto the block spacers.
- Secure all drain connections and fittings.
- Carefully remove the blocks and make sure the bath rim engages the top of the apron on all sides.
- Install a floor- or ceiling-mount bath filler, or a rim-mount faucet. Provide adequate backer board support for a rim-mount faucet.
- Close the bath drain. Fill the bath to the overflow, and check for leaks.
- If desired, apply a thin, continuous bead of clear or color-matched silicone sealant to the seam between the bath and the finished floor.

## Care and Cleaning

For best results, keep the following in mind when caring for your KOHLER product:

- Always test your cleaning solution on an inconspicuous area before applying to the entire surface.
- Wipe surfaces clean and rinse completely with water immediately after applying cleaner. Rinse and dry any overspray that lands on nearby surfaces.
- Do not allow cleaners to soak on surfaces.
- Use a soft, dampened sponge or cloth. Never use an abrasive material such as a brush or scouring pad to clean surfaces.

For detailed cleaning information and products to consider, visit [www.kohler.com/clean](http://www.kohler.com/clean). To order Care & Cleaning information, call 1-800-456-4537.

## Removing Minor Surface Damage

Your solid surface acrylic bath is strong and durable, and will provide you with years of satisfaction. If you observe stains or minor scratches in the acrylic surface, follow these steps to quickly repair your bath.

**IMPORTANT!** This repair procedure is not appropriate for deep scratches, gouges, or chips. For damage of that nature please contact Kohler Co. or a local solid surface repair professional.

**NOTE:** We recommend wet sanding to extend the life of the sandpaper, although dry sanding will produce the same quality repair.

## Removing Minor Surface Damage (cont.)

**NOTE:** Use 400 grit sandpaper to remove scratches and stains.

- Apply flat, even pressure with the sandpaper and move the paper in a circular pattern.
- Inspect your progress frequently to ensure a quality repair.
- Clean or replace the sandpaper as needed during the repair.
- When the damage is repaired, polish the area with clean 600 grit sandpaper. Use a steady circular motion to polish the repaired surface and surrounding area to restore the bath to its original finish.
- When you are finished, rinse the bath surface with clean water to remove any sanding dust and debris. Use a clean cloth to dry the bath surface.

## Warranty

### ONE-YEAR LIMITED WARRANTY

KOHLER plumbing products are warranted to be free of defects in material and workmanship for one year from date of installation.

Kohler Co. will, at its election, repair, replace or make appropriate adjustment where Kohler Co. inspection discloses any such defects occurring in normal usage within one (1) year after installation. Kohler Co. is not responsible for removal or installation costs. **Use of in-tank toilet cleaners will void the warranty.**

To obtain warranty service contact Kohler Co. either through your Dealer, Plumbing Contractor, Home Center or E-tailer, or by writing Kohler Co., Attn.: Customer Care Center, 444 Highland Drive, Kohler, WI 53044, USA, or by calling 1-800-4-KOHLER (1-800-456-4537) from within the USA and Canada, and 001-800-456-4537 from within Mexico, or visit [www.kohler.com](http://www.kohler.com) within the USA, [www.ca.kohler.com](http://www.ca.kohler.com) from within Canada, or [www.mx.kohler.com](http://www.mx.kohler.com) in Mexico.

**IMPLIED WARRANTIES INCLUDING THAT OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. KOHLER CO. AND/OR SELLER DISCLAIM ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.** Some states/provinces do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of special, incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state/province to state/province.

**This is Kohler Co.'s exclusive written warranty.**

THE BOLD LOOK  
OF **KOHLER**®

1275145-2-A

## Before You Begin

- These instructions detail both finished deck or rim, and rough deck installations. Follow only the instructions for your particular installation.
- Observe all local plumbing and building codes.
- Supply 1/2" nominal (5/8" OD) copper tubing.
- Shut off the water supply.
- Provide an access panel for servicing the valves.
- Instructions are given for installations with 8" (203 mm) centers. For wider installations, adjust all roughing-in dimensions and copper tube lengths accordingly. If the spout is to be installed more than 24" (610 mm) from the valves, Kohler Co. recommends installing a Sioux Chief 652-AD vacuum breaker arrestor. Install the vacuum breaker arrestor close to the outlet ports of the valves. For more information, contact Sioux Chief at [www.siouxchief.com](http://www.siouxchief.com).
- Products purchased separately may change the valve placement and alignment.
- Leave the protective guard on the spout supply tube until the spout installation. This is an O-ring sealing surface which may be damaged if left unprotected.
- Plaster guard diameters are approximately 1-5/8" (41 mm) for the valve bodies, and 7/8" (22 mm) for the spout.
- The installed finished deck material must fit closely to the plaster guard diameters.

## Tools and Materials

Propane Torch

Solder

Rags

### Plus:

- Drill and Bits
- Hole Saw
- 1/2" Exterior Grade Plywood (Rim-Mount Installations)
- 1/2" Nominal (5/8" OD) Copper Tubing
- Common Tools and Materials

## 1. Prepare the Site

**IMPORTANT!** Verify that the hole locations will not interfere with drain connections or other accessories.

- Plan for one spout supply hole and two valve body holes.
- Locate the valve body holes 4" (102 mm) away from the spout supply tube centerline. For wider installations, adjust this measurement accordingly.

## 2. Determine the Valve Height

- Plan for the required valve height according to your installation.

### 3. Add Reinforcement (If Applicable)

#### Finished-Deck or Rim-Mount Installation

**NOTICE:** Plywood is required for rim-mount installations to secure the spout supply tube. Follow the bath instructions to correctly cut and position the plywood.

**NOTICE:** Make sure the plywood will not interfere with other plumbing connections or installation of the bath.

- Install 1/2" (13 mm) exterior grade plywood if the finished deck or rim is less than 1/2" (13 mm) thick, or if the faucet will be installed directly to the bath rim.

#### 4. Drill the Holes

**NOTE:** Ensure that the holes are not oversized. The spout and valve bodies require adequate base material strength and maximum contact area with the deck.

- Drill a 1-1/8" (29 mm) spout hole. Do not exceed this hole size.
- Drill two 1-1/2" (38 mm) valve body holes, one on either side of the spout hole. Do not exceed this hole size.

## 5. Install the Supply Tube

**NOTE:** Do not remove the plaster guard from the supply tube.

- Install a 3/8" pipe plug into the supply tube, and wrench tighten.
- Insert the supply tube through the washer, with the flat portion of the washer facing the bath interior.
- Insert the supply tube through the spout hole.
- From underneath, slide the plate (oriented with the tabs up) onto the supply tube.
- Secure the plate with the screws.
- Thread the washer and nut onto the supply tube.
- Wrench tighten the nut.

**For Finished-Deck or Rim-Mount Only**

## 6. Install the Valve Bodies

**NOTE:** Do not solder the connections at this time.

- Cut two 2-7/8" (73 mm) pieces of copper tubing. For wider installations, adjust this length accordingly.
- Connect the copper tubing and tee to the valve body assembly.
- Thread a mounting nut all the way down each valve body.
- Slide a fiber washer, then a rubber washer down each valve body.
- Insert the valve bodies up through the mounting holes so the valve body marked "COLD" is on the right when facing the faucet.
- Temporarily hold the valve bodies in place.
- For rough-deck installation proceed to "Install the Tubing."

### **Finished-Deck or Rim-Mount Only**

- Cut one 2-3/8" (60 mm) piece of copper tubing.
- Insert the copper tubing into the tee and the supply tube.

## 7. Secure the Valve Bodies

### Finished-Deck or Rim-Mount Installation

- Thread the collars down the valve bodies so the exposed valve height is correct for your installation. Refer to the "Determine the Valve Height" section.
- Wrench tighten the mounting nuts to secure the valve bodies.
- Thread the sleeves down the valve bodies.
- Proceed to "Solder the Connections."

## 8. Install the Tubing

### Rough-Deck Installation Only

- Thread the collars down the valve bodies so the exposed valve height is correct for your installation.
- Measure gap "X" as shown above.
- Cut a copper tube to a length of X plus 1" (25 mm).
- Insert the copper tube into the supply tube and tee.

## 9. Secure the Valve Bodies

### Rough-Deck Installation Only

- Verify the required valve height determined earlier. Refer to the "Install the Tubing" section.
- Tighten the mounting nuts to secure the valve bodies.

## 10. Solder the Connections

### All Installations

- Ensure that the cold supply is on the right side when facing the front of the faucet.
- Solder the copper tubing connections.

### Finished-Deck or Rim-Mount Installation

- Remove and discard the plaster guard.
- Proceed to "Check the Installation" to complete the installation.

## 11. Install Tile (If Applicable)

### Rough-Deck Installation Only

- Install the plaster guards over both valves.
- Install the tile up to the plaster guards.
- Remove and discard the plaster guards.

## 12. Check the Installation

- Close the hot valve by turning it clockwise.
- Close the cold valve by turning it counterclockwise.
- Turn on the water supplies, and check for leaks.

### 13. Check for Leaks

- ❑ Make sure a 3/8" pipe plug is securely installed in the supply tube.
- ❑ Open the hot valve by turning it fully counterclockwise.
- ❑ Open the cold valve by turning it fully clockwise.
- ❑ Check the complete installation for any leaks. Repair as needed.

#### 14. Complete the Installation

- Close the hot valve.
- Close the cold valve.
- Turn off the water supplies.
- Position a rag over the pipe plug, and carefully loosen it to release water pressure.
- Remove the pipe plug.
- Install the faucet trim according to the faucet trim instructions.

#### Warranty

##### **KOHLER® Faucet Lifetime Limited Warranty**

Kohler Co. warrants its Faucets\* manufactured after January 1, 1997, to be leak and drip free during normal residential use for as long as the original consumer purchaser owns his or her home. If the Faucet should leak or drip during normal use, Kohler Co. will, free of charge, mail to the purchaser the cartridge necessary to put the Faucet in good working condition. This warranty applies only to Kohler Faucets installed in the United States of America, Canada or Mexico ("North America").

Kohler Co. also warrants all other aspects of the faucet or accessories ("Faucet")\*, (except gold, non-Vibrant®, non-chrome finishes) to be free of defects in material and workmanship during normal residential use for as long as the original consumer purchaser owns his or her home. This warranty applies only to Kohler Faucets installed in North

## Warranty (cont.)

America. If a defect is found in normal residential use, Kohler Co. will, at its election, repair, provide a replacement part or product, or make appropriate adjustment. Damage to a product caused by accident, misuse, or abuse is not covered by this warranty. Improper care and cleaning will void the warranty\*\*. Proof of purchase (original sales receipt) must be provided to Kohler Co. with all warranty claims. Kohler Co. is not responsible for labor charges, installation, or other incidental or consequential costs. In no event shall the liability of Kohler Co. exceed the purchase price of the Faucet.

If the Faucet is used commercially or is installed outside of North America, or if the finish is gold, non-Vibrant or a painted or powder coated color finish, Kohler Co. warrants the Faucet to be free from defects in material and workmanship for one (1) year from the date the product is installed, under Kohler Co.'s standard one-year limited warranty.

If you believe that you have a warranty claim, contact Kohler Co., either through your Dealer, Plumbing Contractor, Home Center or E-tailer, or by writing Kohler Co., Attn.: Customer Care Center, 444 Highland Drive, Kohler, WI 53044, USA. Please be sure to provide all pertinent information regarding your claim, including a complete description of the problem, the product, model number, color, finish, the date the product was purchased and from whom the product was purchased. Also include your original invoice. For other information, or to obtain the name and address of the service and repair facility nearest you, call 1-800-4-KOHLER (1-800-456-4537) from within the USA and Canada, and 001-800-456-4537 from within Mexico, or visit [www.kohler.com](http://www.kohler.com) within the USA, [www.ca.kohler.com](http://www.ca.kohler.com) from within Canada, or [www.mx.kohler.com](http://www.mx.kohler.com) in Mexico.

**KOHLER CO. AND/OR SELLER ARE PROVIDING THESE WARRANTIES IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. KOHLER CO. AND/OR SELLER DISCLAIM ALL LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES. Some states/provinces do not allow limitations of how long an implied warranty lasts or the exclusion or limitation of such damages, so these limitations and exclusions may not apply to you. This warranty gives the consumer specific legal rights. You may also have other rights that vary from state/province to state/province.**

**This is Kohler Co.'s exclusive written warranty.**

\*Trend® faucets, MasterShower® tower, BodySpa systems and

**Warranty (cont.)**

components; WaterHaven<sup>®</sup> tower, systems and components; Tripoint<sup>®</sup> faucets, Polished Gold, non-Vibrant and painted or powder coated finishes, fittings; all items within the "Fixture Related" section of the Kohler Faucets Price Book, drains, Duostrainer<sup>®</sup> sink strainers, soap/lotion dispensers, Moxie<sup>®</sup> Wireless Speaker; and faucets used in commercial settings, and outside North America, are covered by Kohler Co.'s one-year limited warranty.

\*\*Never use cleaners containing abrasive cleansers, ammonia, bleach, acids, waxes, alcohol, solvents or other products not recommended for chrome. This will void the warranty.

## Thank You For Choosing Kohler Company

Thank you for choosing Kohler Company. Your Kohler Company product reflects the true passion for design, craftsmanship, artistry, and innovation Kohler Company stands for. We are confident its dependability and beauty will surpass your highest expectations, satisfying you for years to come.

All the information in this guide is based upon the latest product information available at the time of publication. At Kohler Company, we strive to fulfill our mission of improving the level of gracious living for each person who is touched by our products and services. We reserve the right to make changes in product characteristics, packaging, or availability at any time without notice.

Please take a few minutes to review this guide. If you encounter any installation or performance problems, please call 1-800-4-KOHLER (1-800-456-4537) from within the USA and Canada, or 001-877-680-1310 from within Mexico.

## Merci d'avoir choisi la compagnie Kohler

Merci d'avoir choisi la compagnie Kohler. Votre produit de la compagnie Kohler reflète la véritable passion du design, d'artisanat, d'art et d'innovation représentant la compagnie Kohler. Nous sommes confiants que sa fiabilité et beauté surpasseront vos exigences les plus élevées, vous satisfaisant pendant les années à venir.

Toutes les informations incluses dans ce guide correspondent aux toutes dernières informations disponibles au moment de la publication. A la compagnie Kohler, nous aspirons à remplir notre mission d'améliorer le niveau de vie gracieux pour chaque individu affecté par nos produits et services. Nous nous réservons le droit d'apporter des modifications aux caractéristiques, aux emballages et à la disponibilité des produits à tout moment, et ce sans préavis.

Veillez prendre s'il vous plaît quelques minutes pour étudier ce guide. En cas de problème d'installation ou de fonctionnement, appeler le 1-800-4-KOHLER (1-800-456-4537) aux É.U. et au Canada, ou le 001-877-680-1310 au Mexique.

## Gracias por elegir los productos Kohler

Gracias por elegir los productos Kohler. Su producto de Kohler Company refleja la verdadera pasión por el diseño, la mano de obra, la artesanía y la innovación que forman parte de Kohler Company. Estamos seguros que su confiabilidad y belleza excederán sus más altas expectativas, dándole satisfacción por años.

Toda la información que aparece en la guía está basada en la información más reciente disponible al momento de publicación. En Kohler Company, nos esforzamos por alcanzar nuestra misión de mejorar el nivel del buen vivir de quienes disfrutan de nuestros productos y servicios. Nos reservamos el derecho de efectuar cambios en las características, embalaje o disponibilidad del producto en cualquier momento, sin previo aviso.

Dedique unos minutos para leer esta guía. Si tiene algún problema de instalación o funcionamiento, llámenos al 1-800-4-KOHLER (1-800-456-4537) desde los EE.UU. y Canadá, ó 001-877-680-1310 desde México.

## Important Information

**CAUTION: Risk of property damage.** A watertight seal must exist on all bath drain connections. The watertight seal will prevent property damage.

- Observe all local plumbing and building codes.
- If possible, install the drain before installing the bath.

### Important Information (cont.)

- Kohler Co. reserves the right to make revisions in the design of drains without notice, as specified in the Price Book.

### Informations importantes

**ATTENTION: Risque d'endommagement du matériel.** Un joint étanche doit être présent sur toutes les connexions de drain de baignoire. Le joint étanche doit prévenir tout dommage.

- Respecter tous les codes de plomberie et de bâtiment locaux.
- Si possible installer le drain avant d'installer la baignoire.
- Kohler Co. se réserve le droit d'apporter toutes modifications au design des drains et ceci sans préavis, comme spécifié dans le catalogue des prix.

### Información importante

**PRECAUCIÓN: Riesgo de daños a la propiedad.** Debe existir un sello hermético en todas las conexiones del desagüe de la bañera. Este sello hermético evitará daños a la propiedad.

- Cumpla con todos los códigos locales de plomería y construcción.
- Si es posible, instale el desagüe antes de instalar la bañera.
- Kohler Co. se reserva el derecho de modificar el diseño de los desagües sin previo aviso, tal como se especifica en la lista de precios.

15

Attach the overflow cover by aligning holes to mounting plate hooks and tightening the setscrew.  
Fixer le couvercle de trop-plein en alignant les orifices sur les crochets de la plaque de fixation et en serrant la vis de calage.  
Fije la tapa del rebosadero alineando los orificios con los ganchos de la placa de montaje y apretando el tornillo de fijación.

Install stopper.  
Installer l'arrêt.  
Instale el obturador.

16

Fill bath past overflow.  
Remplir la baignoire au-delà du trop-plein.  
Llene la bañera más arriba del rebosadero.

Check for leaks.  
Vérifier s'il y a des fuites.  
Verifique que no haya fugas.

## Care and Cleaning

For best results, keep the following in mind when caring for your KOHLER product:

- Use a mild detergent such as liquid dishwashing soap and warm water for cleaning. Do not use abrasive cleaners that may scratch or dull the surface.
- Carefully read the cleaner product label to ensure the cleaner is safe for use on the material.
- Always test your cleaning solution on an inconspicuous area before applying to the entire surface.
- Do not allow cleaners to sit or soak on the surface.
- Wipe surfaces clean and rinse completely with water immediately after cleaner application. Rinse and dry any overspray that lands on nearby surfaces.
- Use a soft, dampened sponge or cloth. Never use an abrasive material such as a brush or scouring pad to clean surfaces.

For detailed cleaning information and products to consider, visit [www.kohler.com/clean](http://www.kohler.com/clean). To order Care & Cleaning information, call 1-800-456-4537.

## Entretien et nettoyage

Pour de meilleurs résultats, prendre ce qui suit en considération lors de l'entretien de votre produit KOHLER:

- Utiliser un détergent doux tel que liquide pour vaisselle et de l'eau chaude pour nettoyer. Ne pas utiliser de nettoyeurs abrasifs car ils pourraient rayer ou abîmer la surface.
- Lire attentivement l'étiquette du produit de nettoyage pour vérifier qu'il soit adéquat à utiliser sur le matériau.
- Toujours tester la solution de nettoyage sur une surface la moins évidente avant de l'appliquer sur la totalité de la surface.
- Ne pas permettre aux nettoyeurs de reposer sur la surface.
- Essuyer les surfaces et rincer complètement avec de l'eau immédiatement après l'application du nettoyeur. Rincer et sécher tout éclaboussement sur les surfaces avoisinantes.
- Utiliser une éponge ou un chiffon doux et humide. Ne jamais utiliser de matériau abrasif tel que brosse ou éponges à récurer pour nettoyer les surfaces.

Pour l'information détaillée de nettoyage et des produits à considérer, visiter [www.kohler.com/clean](http://www.kohler.com/clean). Pour commander des informations d'entretien et de nettoyage, composer le 1-800-456-4537.

## Cuidado y limpieza

Para obtener los mejores resultados, tenga presente lo siguiente al limpiar su producto KOHLER:

- Para la limpieza, utilice solamente un detergente suave como el jabón líquido para lavar platos y agua tibia. No utilice limpiadores abrasivos que puedan rayar u opacar la superficie.
- Lea atentamente la etiqueta del producto de limpieza para asegurar que no presente riesgos al usarse en el material.
- Siempre pruebe la solución de limpieza en un área oculta antes de aplicarla a toda la superficie.
- No deje por tiempo prolongado los limpiadores en la superficie.
- Limpie con un trapo y enjuague completa e inmediatamente con agua después de aplicar limpiadores. Enjuague y seque las superficies cercanas que se hayan rociado.
- Utilice una esponja o trapo suave y húmedo. Nunca utilice materiales abrasivos como cepillos o estropajos de tallar para limpiar las superficies.

## Cuidado y limpieza (cont.)

Para obtener información detallada de limpieza y los limpiadores a considerar, visite [www.kohler.com/clean](http://www.kohler.com/clean). Para solicitar información sobre el cuidado y la limpieza, llame al 1-800-456-4537.

## Warranty

### ONE-YEAR LIMITED WARRANTY

KOHLER plumbing products are warranted to be free of defects in material and workmanship for one year from date of installation.

Kohler Co. will, at its election, repair, replace or make appropriate adjustment where Kohler Co. inspection discloses any such defects occurring in normal usage within one (1) year after installation. Kohler Co. is not responsible for removal or installation costs. **Use of in-tank toilet cleaners will void the warranty.**

To obtain warranty service contact Kohler Co. either through your Dealer, Plumbing Contractor, Home Center or E-tailer, or by writing Kohler Co., Attn.: Customer Care Center, 444 Highland Drive, Kohler, WI 53044, USA, or by calling 1-800-4KOHLER (1-800-456-4537) from within the USA and Canada, and 001-877-680-1310 from within Mexico.

**IMPLIED WARRANTIES INCLUDING THAT OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. KOHLER CO. AND/OR SELLER DISCLAIM ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.** Some states/provinces do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of special, incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state/province to state/province.

This is Kohler Co.'s exclusive written warranty.

## Garantie

### GARANTIE LIMITÉE D'UN AN

Les produits de plomberie KOHLER sont garantis contre tout défaut matériel et de fabrication pour un an, à partir de la date de l'installation.

Kohler Co. jugera à sa discrétion, de la réparation, du remplacement ou du réglage approprié et ceci après toute inspection faite par Kohler Co. de tous défauts dus à une utilisation normale et ceci pendant un (1) an à partir de la date d'installation. Kohler Co. n'est pas responsable des coûts de démontage ou d'installation. **L'utilisation de nettoyeurs à l'intérieur du réservoir annulera la garantie.**

Pour obtenir un service-garantie, contacter Kohler Co. par l'intermédiaire de votre vendeur, plombier, centre de rénovation, revendeur par internet ou par écrit à Kohler Co. à l'attention de: Customer Care Center (Service d'assistance à la clientèle), 444 Highland Drive, Kohler, WI 53044, USA, ou composer le 1-800-4KOHLER (1-800-456-4537) à partir des États-Unis et du Canada, et le 001-877-680-1310 à partir du Mexique.

**LA DURÉE DES GARANTIES TACITES, Y COMPRIS CELLES DE QUALITÉ MARCHANDE ET D'APTITUDE À UN EMPLOI PARTICULIER, SE LIMITE EXPRESSÉMENT À LA DURÉE DE LA PRÉSENTE GARANTIE. KOHLER CO. ET/OU LE REVENDEUR DÉCLINENT TOUTE RESPONSABILITÉ CONTRE LES DOMMAGES PARTICULIERS, IMPRÉVUS OU DE CIRCONSTANCE.** Certains états/provinces ne permettent pas la limitation sur la durée de la garantie implicite, ou

## Garantie (cont.)

l'exclusion ou la limitation de dommages spéciaux, accessoires ou indirects, et, par conséquent, ces limitations et exclusions pourraient ne pas s'appliquer dans votre cas. Cette garantie vous donne des droits légaux spécifiques. Vous pouvez également avoir d'autres droits qui varient d'un état/province à l'autre.

Ceci constitue la garantie écrite exclusive de Kohler Co.

## Garantía

### GARANTÍA LIMITADA DE UN AÑO

Se garantiza que los productos de plomería KOHLER están libres de defectos de material y mano de obra por un año a partir de la fecha de instalación.

Kohler Co., a su criterio, reparará, reemplazará o realizará los ajustes pertinentes en los casos en que la inspección realizada por Kohler Co. determine que dichos defectos ocurrieron durante el uso normal en el transcurso de un (1) año a partir de la fecha de la instalación. Kohler Co. no se hace responsable de los gastos de desinstalación o instalación. **El uso de limpiadores de inodoro que se colocan dentro del tanque anulará la garantía.**

Para obtener el servicio de garantía, comuníquese con Kohler Co. a través de su distribuidor, contratista de plomería o distribuidor a través de Internet, o escriba directamente a: Kohler Co., Attn.: Customer Care Center, 444 Highland Drive, Kohler, WI 53044, U.S.A. o llame al 1-800-4KOHLER (1-800-456-4537) desde los Estados Unidos y Canadá, o al 001-877-680-1310 desde México.

**TODA GARANTÍA IMPLÍCITA EN RELACIÓN A PRODUCTOS DE USO COMERCIAL, INCLUYENDO LA COMERCIALIZACIÓN E IDONEIDAD DEL PRODUCTO PARA UN USO DETERMINADO, SE LIMITA EXPRESAMENTE A LA DURACIÓN DE LA PRESENTE GARANTÍA. KOHLER CO. Y/O EL VENDEDOR NO SE HACEN RESPONSABLES POR CONCEPTO DE DAÑOS PARTICULARES, INCIDENTALES O INDIRECTOS.** Algunos estados/provincias no permiten limitaciones en cuanto a la duración de una garantía implícita o a la exclusión o limitación de daños particulares, incidentales o indirectos, por lo que estas limitaciones y exclusiones pueden no aplicar a su caso. Esta garantía le otorga ciertos derechos legales específicos. Además, usted puede tener otros derechos que varían de estado a estado y provincia a provincia.

**El presente documento constituye la garantía exclusiva por escrito de Kohler Co.**
