

Features

- Effectively reduces contaminants including arsenic, fluoride, TDS, bacteria, virus, lead, mercury, chlorine and pharmaceuticals in your cold water.
- Filter head automatically turns off water supply when cartridge is removed.
- Replacing RO sediment pre-filter, carbon block CTO filter and carbon block VOC filter every six months keeps filtration system performing effectively.
- Postage-paid recycling program for used cartridges to reduce solid waste to landfills.
- For cold water use only.

Material

- High-impact plastic construction.

Installation

- Under-sink.
- Quarter-turn twist cartridge for easy installation and replacement.

Included Components

Additional Components:

- K-22157 Reverse osmosis (RO) sediment pre-filter replacement
- K-22158 Reverse osmosis (RO) carbon block CTO filter
- K-23334 Reverse osmosis (RO) carbon block VOC filter

Codes/Standards

None Applicable

KOHLER® Water Filter Systems Five-Year Limited Warranty

See website for detailed warranty information.

Technical Information

All product dimensions are nominal.

Notes

For cold water use only.

To ensure the filter continues to reduce contaminants effectively, it is recommended that the filter gets replaced every 6 months.

Application guideline/water supply parameters:
Water Pressure: 40-100 psi (276-689 kPa) Water
Temperature: 40-100°F (4.4-37.8°C) Capacity:
230 gal (871 L)
