KUZCO

2020 OUTDOOR INTRODUCTION

CONTENTS

SONOMA.

EB3024 / EB3036

Designed to emulate rectilinear architectural forms the Sonoma exterior bollard radiates light downwards through the four openings in the structure. The gaps serve to elevate the die-cast aluminum square housing higher while providing ample space to radiate the LED luminance. Available in two heights for a cultivated exterior environment.

● BK—Black | Custom Options Available

NAPA.

EB2924 / EB2936

Architectural designed high powered LED exterior bollard fixture, die-cast aluminum square-shaped housing with four rectangular-shaped openings which radiates the light downward and throughout all openings and surrounding areas of the bollard. Certified ETL wet location rated and is available in two different heights.

LOKI.

EB39824 / EB39924

An impressive orthogonal light column, the exterior fixture denotes modern sophistication and a minimalist aesthetic. Cast-aluminum planes frame the rectangular inset diffuser that produces a uniform outwards illumination. Available in black powder-coated finishes and optional light orientation, either as a one-directional lamp or dual emitting variation.

SHINOLA.

EB48132 / EB48240

Utilizing bounce lighting technique the Shinola bollard range creates a glare-free light spread. With the LED sources concealed inside the cylindrical cast-aluminum cap light is directed downwards and reflects off the optical cone diffuser. A transparent polycarbonate tube seals the radiant chamber that adorns the top of the substantial column base. Available in two sizes and Black powder-coated finish.

COMO.

EW48302 / EB48314 / EB48328

Behind the circular flat surface of the die-cast aluminum cap is an assemblage of LED sources directed outwards and sealed with a clear polycarbonate lens. As a surface mount used in multiples the reductive shape encourages both austere and complex alignments. An extension of the Como series places the truncated cylinder at the peak of a tubular post resulting in an elegant pathway lighting solution. Available in multiple configurations and Black powder-coated finish.

EW36804-BK

EW36805-BK

WILSHIRE.

EW36804 / EW36805

A sharply defined light pattern and crisp geometric edges are emblematic of the rectilinear Wilshire series. Dual beams of illumination are projected from the open sides of the wall-mounted die-cast housing. The quintessential form and quality of construction allow the exterior rated fixture to additionally perform as fine interior accent. Available in multiple sizes and Black powder-coated finish.

EW64906

SIGNAL.

EW64906

Utilizing a ubiquitous cylindrical shape the Signal exterior fixture features an innovative shift in materiality. A die-cast opal tube radiates ambient light from the fixture body while symmetrical translucent diffusers distribute illumination up and down. Slightly offset from the mounting surface an illusory effect is created of a floating column of luminance.

COLUMBIA.

ES49604

Appearing as a floating disc offset from the surface plane, the circular Columbia wall mount directs light outwards in a focused radial spread. Intended for installation in the centre of a cavity or recess, the exterior-rated lamp illuminates the architectural border creating an ambient perimeter of radiance. The die-cast aluminum assembly is powder-coated and available in Black finish.

FAIRFAX.

EW36403 / EW36406

Concealed behind the glowing orthogonal façade of the Fairfax wall mount are variable spread light sources. Hidden within the die-cast planar surround are adjustable shutters that allow for active beam angle modification. Reductive in shape yet resolved in detail, the fixture functions well in repetition or clustered configurations. Available in two sizes and Black finish.

EC34111-BK

EC34113-BK

DAKOTA.

EC34111 / EC34113

A square opal optic is inset from the precision cast-aluminum body of the Dakota that contains and diffuses the LED light array. The recess along the border of the illuminated protrusion creates a continuous highlight on the nearby perimeter edges. Further considered details are apparent with a subtle gap between the fixture and mounting surface producing a shadow line while obscuring the attachment hardware. Available in two sizes and Black powder-coated finish.

ELLE.

EC44111 / EC44113

A circular opal optic is inset from the precision cast aluminum body of the Elle that contains and diffuses the LED light array. The recess along the circumference of the illuminated protrusion creates a continuous highlight on the nearby perimeter edge. Further considered details are apparent with a subtle gap between the fixture and mounting surface producing a shadow line while obscuring the attachment hardware. Available in two sizes and multiple finishes.

MORAINE.

EC43711

With a slim profile and exacting detail of construction the Moraine circular exterior lamp provides an ideal contemporary surface mounted fixture. The fine edge thickness of the die-cast aluminum housing wraps the polycarbonate diffuser culminating in a uniformly flush facade. Illumination follows the diameter of the fixture resulting in a planar halo of downwards radiance. Available in Black powder-coated finish.
